

Nicole M. Tyer, MD, an Internist in Private Practice

New York City, New York Jul 20, 2023 ([IssueWire.com](https://www.issuewire.com)) - A committed internist, Dr. Tyler sees patients at her private practice in Beverly Hills, California. She is dedicated to providing comprehensive and empathetic care, going above and beyond to ensure her patients receive the time and respect they deserve. Her approach involves active listening to understand their concerns and collaboratively finding practical solutions to improve their health. Patients consistently describe her as thorough, caring, and responsive, highlighting her commitment to their well-being.

Born and raised in Southern California, she pursued her academic journey at UCLA, where she completed her Bachelor of Science degree in Biochemistry as part of the Honors Program. She then earned her medical degree from Hahnemann University Hospital / Drexel University. Her training continued at Cedars-Sinai Medical Center, where she completed her internship, residency, and chief residency in internal medicine. She also dedicated an additional year to specialized training in metabolism and diabetes at UCLA, conducting research on adipocyte stem cells and hormonal functions.

In pursuit of clinical excellence, the doctor is board-certified in internal medicine by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world. She has also attained board certification in obesity medicine through the American Board of Obesity Medicine (ABOM).

Following her training, Dr. Tyler spent seven years on the east coast, where she gained invaluable experience. She practiced internal medicine at the prestigious Memorial Sloan Kettering Cancer Center, providing care to highly complex patients. Additionally, she worked in a clinical setting at Cornell Medical Center, combining her clinical expertise with her passion for teaching.

As an Assistant Professor of Clinical Medicine at Cornell Medical School, she taught numerous medical school classes on topics such as the doctor-patient relationship and problem-based learning. She also spearheaded resident rotations at the MSKCC Urgent Care Center, further contributing to the education and development of medical professionals. Her outstanding achievements led to her recruitment by Yale New Haven Health, where she served as the Assistant Program Director for the Yale New Haven Health Internal Medicine Residency at Greenwich Hospital in Connecticut.

In 2019, Dr. Tyler made the decision to return to her roots in sunny Los Angeles. Currently, she offers a wide range of services, including primary care, internal medicine, pre-operative evaluations, weight management consultations, and concierge care. Her expertise and dedication have been recognized through numerous awards for research, teaching, and clinical care. She has also presented at regional and national conferences and has contributed to various peer-reviewed articles, case reports, and book chapters.

Internal medicine is the medical specialty dealing with the prevention, diagnosis, and treatment of adult diseases. Physicians specializing in Internal Medicine are called Internists. They manage and prevent common and complex diseases by providing comprehensive care and promoting overall well-being.
