The latest track '[10,000 Excuses](#)' is based on the deep philosophy of life where it encourages us to strive through struggle and failures rather than offering 10000 excuses for not achieving it. In order to become powerful, one must endeavour to work out how to deal with real problems and not offer any excuse for their shortcomings.. Giving excuses is easier than striving through challenges and so, most people tend to opt for this easy escape. However, the artist puts an effort to empower everyone through his music and philosophical mind. The amalgamation of well-crafted music and poetic lyricism makes this a poetic masterpiece.

This is not the first time, as [Recertified Teenager](#) previously dropped many singles that show his consistency and creativity. Some of the tracks like 'One Life-One Shot', 'Good Old Days', 'Better Way', etc are the greatest examples of his creative psyche that churns out the real essence of RnB and Soul

music. Hailing from the United Kingdom, the artist is looking forward to spreading his musical aura all over the world. He is gaining at full throttle and there is no stopping now.
