

Suite42 Partners with Farmers in Widharbha region, Maharashtra to Provide Sustainable Turmeric

Nagpur, Maharashtra Jul 31, 2023 ([Issuewire.com](https://www.issuewire.com)) - Suite42, a leading contract manufacturer of food and beverage products, has announced a new partnership with farmers in Widharbha region, Maharashtra to provide sustainable turmeric. The partnership will help to ensure reliable quality turmeric for Suite42's customers, while also providing economic benefits to the farmers.

Turmeric is a valuable crop in the Widharbha region, and the farmers in the region have a long history of growing and harvesting it. However, the traditional methods of turmeric cultivation can be harmful to the environment. Suite42's partnership with the farmers will help to address these environmental concerns by promoting sustainable farming practices. Suite42 will also help farmers increase their yield by implementing modern scientific techniques and technology.

Under the partnership, Suite42 will provide the farmers with training on sustainable farming practices.

"We are excited to partner with the farmers in Widharbha region, Maharashtra to provide sustainable turmeric," said Suite42's Category Manager, Spice, Parag Tiwade "This partnership is a win-win for both Suite42 and the farmers. We can ensure a steady supply of high-quality turmeric for our customers, while also helping the farmers to improve their livelihoods."

The partnership with the farmers in Widharbha region is part of Suite42's commitment to sustainability. Suite42 is committed to using sustainable practices in all of its operations, and this partnership is a step in the right direction.

"We believe that it is important to give back to the communities that we work with," said Tiwade. "This partnership is a way for us to do that, while also ensuring that our customers have access to high-quality turmeric."

The partnership between Suite42 and the farmers in the Widharbha region is a great example of how businesses can work with communities to promote sustainability. The partnership is a step in the right direction for the future of turmeric cultivation.
