

UploadNow: Revolutionizing the Way People Share Files Online

Milpitas, California Jul 5, 2023 ([IssueWire.com](https://www.issuewire.com)) - As the whole world moves towards digitization, more and more companies are looking for reliable and efficient file-uploading services. There are many reasons for this, ranging from file security to convenience and trust. However, there are few services that provide a complete balance of all three. Luckily, UploadNow is here to solve everyone's file uploading and storage requirements.

Introducing UploadNow

UploadNow is a cloud storage and file-sharing service that allows users to upload files without requiring any registration. Companies and individuals can use UploadNow to host and store their files and share them conveniently through links or mail.

UploadNow allows a large number of file types to be uploaded. This includes images, files, video, audio, PDF documents, and more. The interface is easy to use, with users simply dragging and dropping the files into it to begin the upload.

Free Service With No Registration Required

Unlike most other file storage and sharing services, all of UploadNow's features are free. Users simply need to create a free UploadNow account to access all the features and upload limits available.

No registration is required when using UploadNow. One can anonymously store and share photos, videos, and other file types. There is a secure cloud available that requires users to upgrade.

The service is very easy to use, as it is capable of sharing folders and files with a simple click. Users can implement password protection at each level if required. UploadNow also lets users preview and stream certain types of files after uploading has been completed.

Different Plans are Available

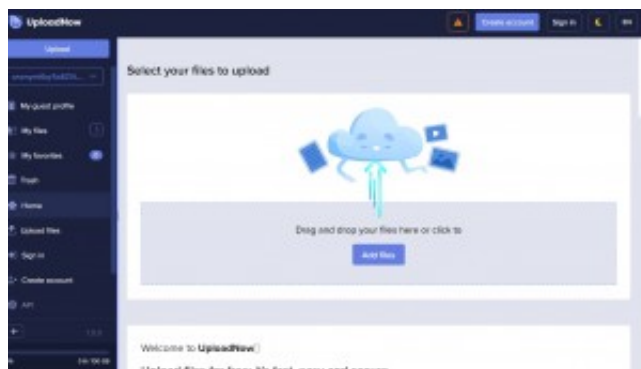

UploadNow has come up with different plans to cater to the requirements of different types of users and companies.

- The Starter plan is priced at 5 euros and provides 500GB of dedicated storage and a total file limit of 10,000.
- The Pro plan is priced at 10 euros and provides 1000GB of dedicated storage and a total file limit of 20,000.
- The Pro Plus plan is priced at 25 euros and provides 200GB of dedicated storage and a total file limit of 40,000.
- The Business plan is priced at 50 euros and provides 5000GB of dedicated storage and a total file limit of 100,000.
- The Business Plus plan is priced at 100 euros and provides 10,000 GB of dedicated storage and a total file limit of 200,000.
