

Wholistic Wanders Partners with Backwoods Adventure Mods for Overland Van Tour at Overland Expo PNW

Attendees will have the opportunity to check out a truly noteworthy rig, 'The Megalodon', a High Roof MB Sprinter 3500 XD - 170" Extended van built for an off-grid holistic lifestyle.

Redmond, Oregon Jul 4, 2023 ([Issuewire.com](https://www.issuewire.com)) - Wholistic Wanders' founder Megan Adolph, a leading holistic lifestyle and travel/adventure Creator and Influencer, will showcase her adventure van at the Overland Expo® Pacific Northwest (PNW). The event is being held at the Deschutes Expo Center in Redmond, Ore., July 7-9, 2023.

The van tour and Q&A session is scheduled for 2 pm on Saturday, July 8th, at the Backwoods Adventure Mods booth, a Title Sponsor, at Overland Expo® Pacific Northwest (PNW) 2023. The overland Mercedes Benz Sprinter 3500XD is a unique adventure van with hundreds of upgrades from overland and tiny home life accessory companies, with features to accommodate full-time van living. "The Backwoods Adventure Mods team and I invite everyone curious about adventure vans and van off-

road modifications to visit the booth at 2 pm on Saturday to tour the van and ask questions. The tour will allow attendees to identify priority modifications for their van and hopefully make a few connections for those mods while talking to exhibitors," stated Adolph, van owner, and tour guide. "The number of providers offering overland mods and van accessories has tripled over the past few years. By touring a van that's been exposed to off-highway conditions, van enthusiasts and overlanders can see for themselves which products will be the most important to them," she added.

The Influencer and Digital Creator have been living full-time for approximately six months, and having a van that's 'always ready' for off-grid excursions or conditions has proven to be a great investment. She shared, "Campgrounds and state parks are nice, but it's natural to be drawn to the wilderness. Adding off-road features to your van or truck makes sense if you're considering full-time van living/overlanding, boondocking, or driving off the beaten path. With the right overland accessories, you'll have confidence navigating whatever lies ahead."

Visitors to the [Backwoods Adventure Mods](#) Booth at 2 pm on Saturday will learn first-hand about features and products that are a top choice among the van life and overland crowd. Backwoods Adventure Mods offers aluminum and steel hybrid products that provide best-in-class strength and reliability without adding too much weight to vans, trucks, or SUVs. The Megalodon sprinter van features several of these mixed products, and on the inside, visitors will see how a well-appointed kitchen, cleverly designed storage, pet-friendly features, and tech options help make van life feel like home.

Expo attendees who want to receive a reminder for the tour via email or text can sign up online at [Wholistic Wanders News and Events](#). Reminders will be sent Saturday morning before lunchtime.

About Wholistic Wanders

Wholistic Wanders is owned and operated by Digital Creator Megan Adolph. Megan has immersed herself in physical fitness as a student and coach for almost ten years. Megan holds a Bachelor's in Exercise Science and is a Certified Holistic Health Coach.
