Mumbai, Maharashtra Jul 10, 2023 ([IssueWire.com](https://www.issuewire.com)) - "WildGlow," India's first and best-crafted, dermatologist-tested, natural, and organic beauty brand, provides skincare products that are effective yet gentle on even the most sensitive skin types. This luxury brand is not only best for your skin but also beneficial for the globe. That's why WildGlow uses natural ingredients whenever possible and strives to use eco-friendly packaging and practices. Empowering people to create and communicate through inner beauty has always been the core of WildGlow's mission to rule the beauty industry.

We take pride in our commitment to using natural and organic ingredients that are dermatologically tested, and PETA has certified us as Vegan and Cruelty-free. We are already live on the leading E-commerce platforms like Amazon, Myntra, Flipkart, Nykaa, Ajio, and Jio Mart and are in talks to associate with more major platforms. We are also about to run our TVC ad on leading channels like Colours TV, Star Plus, Sony TV, Zed, and many more.

We stepped into the beauty and skincare industry with the belief that everyone should experience the uniqueness of WildGlow products. That's why we have created products after testing them on 1000+ people, and to our surprise, we really got amazing results on every skin type, whether it was dry, normal, oily, sensitive, combination, acne-prone, open-pored, etc. We created each and every product according to the solution to all skin problems. We wanted to make skincare feel more like self-love than just a chore.

As a skincare brand, we are associated with a very well-known actress, Urvashi Rautela, as the brand face of WildGlow. Recently, we completed the ad shoot and wanted to make something special that showed off both Urvashi's beauty and the specialty of our skincare products.

Our products range from face cleansers, scrubs, toners, serums, moisturisers, face masks, beauty tools, and Beauty gummies.

Currently, WildGlow holds a significant position in the beauty and skincare industries and is located in the business capital of India, Mumbai. To put the cherry on top, WildGlow is about to launch its color bar and cosmetics range soon. We boast of expanding the business globally in the coming years.

WildGlow utilizes a cutting-edge approach to engage with its modern customer base. The website, www.wildglow.in, features exciting content, interactive elements, and a forum for customer feedback. Consumers can become fans of WildGlow on Facebook, Instagram, and Snapchat and can follow the company on Twitter. WildGlow products are distributed exclusively via the company's website and E-commerce platforms.
