GOOD KIND THINGS FOR OTHERS

A True Story of Corruption in the Texas Panhandle

Glenn Baxter

“This place is prepared for those who dishonor God,
who on earth practice sin against nature, which is
sodomy of a child, corruption of children.”

Borger, Texas Aug 31, 2023 (Issuewire.com) - Channel 10 News in Amarillo, Texas served as a beacon of justice for nearly 70 percent of other good honest folks in Hutchinson County who voted down a bond issue to bail out the corrupt and near bankrupt Hospital District stained with Child Pornography.

In February 2000 five years earlier, The District Attorney conspired with the Hospital Administrator at Golden Plains Hospital in Borger, Texas to suppress the Federal Crime committed by the Chief Financial Officer at the hospital who resigned by letter on February 25th 2000. The employee received a severance check for over eleven thousand dollars. The District Attorney and hospital Administrator had secretly hidden child pornography found on the employee's hospital computer. The severance check was signed 5 days after the child pornography was reported. **WHY...was it a payoff to keep the CFO's mouth shut?**

Under the District Attorney known as the "Boss" and "Good Old Boy Gang" of crony board members, nurses, doctors, church deacons, judges, and con artists in the Rotary Club and Chamber of Commerce who lied, cheated, and stole through kickbacks, defective MRI machine scam and inflated salaries to rape the Citizens of Hutchinson County out of their tax dollars and good healthcare. This gang also supported a slimy pedophile who used the hospital computer to view a photo collection of children being sexually abused by adults. The law authorities **never inspected other computers** in the hospital to assure that a child porno sex ring was not viewing child porno photos/films of children being sexually abused? **WHY NOT?**

Shockingly, five years later, on July 15th, 2005 the Pedophile was arrested at the Texas State Hospital in Austin, Texas for child pornography on his hospital computer. **How was he employed without references?** The outright treachery of filth was happening daily under the nose of the of the Child and Adolescent Psychiatric Service Department for children up to age 12. The hospital air conditioning technician saw the filthy photos on the Pedophile's computer and reported to his Supervisor. Weeks later the Pedophile was still reporting to work as usual. The technician went to his Supervisor and asked, **"Why is he still here?"** The Supervisor said, **"Leave it alone, forget about it."** This upset the technician, so he went to the Austin Police Department to file a complaint. A police officer secured a search warrant to go to the State Hospital and confiscate the computer for forensic examination. Larry Nelson Langley was arrested and on November 30, 2006, was convicted in the 390th Court in Travis County to serve a 15 year sentence.

Baxter and his 80 year old mother attended the criminal trial. When Baxter met with the Austin Policeman who made the arrest, he asked him if the other computers were inspected. The policeman said, "NO and he did not have the authority to make an inspection. He gave Baxter the contact information of a Texas Ranger authorized to request a forensic inspection. Baxter called the Ranger and explained the situation. Two weeks later the telephone rang and the Ranger's voice spoke, "Sorry but the District Attorney for Travis County will not approve of forensic inspection. **WHY NOT?**

Questions go unanswered. In the present day, is there a dark Pedophile ring employed at the Texas State Hospital that preys on the children in rooms? Do they drug and rape children over and over while another is shooting closeups of an adult penetrating children's private parts? And are they profiting from selling these images on the black web internet in the 150 billion dollar a year human child trafficking industry that is being exposed in today's worldwide news on the movie SOUND of FREEDOM. Tim

Ballard - Operation Railroad has stated, It's very scary when The United States is the number one country in the world for consuming child exploitation material (child pornography) "these children are raped over and over again"-
