Cisdem Video Converter for Windows 2.9.0 Supports Hardware Acceleration, Faster Than Ever

Chicago, Illinois Aug 23, 2023 ([Issuewire.com](https://www.issuewire.com)) - Cisdem, a leading software company, is proud to announce the launch of its Video Converter for Windows V2.9. This major upgrade marks a significant step forward in the speed of video encoding and decoding, as it applies hardware acceleration technologies from NVIDIA, AMD, and Intel to software, making tasks completed more quickly.

Cisdem Video Converter is a multipurpose program that provides users with reliable tools for converting between digital files, ripping DVDs, and downloading online videos.

“Cisdem Video Converter adds hardware acceleration technology to boost speed, even if multiple videos are handled in batches, the speed won't be affected.” Stated Edward Riley, Cisdem's Project Manager. “In addition, we have fixed some bugs based on user feedback, thereby improving the quality and reliability of the software.”

Cisdem Video Converter for Windows 2.9.0 latest updates include:

1. Fixed the issues that the video length is incorrect after trimming and the video and audio are out of sync after trimming.
2. Fixed the crash issue while downloading video files.
3. Fixed the issue that the video length is incorrect after merging multiple video files without audio.
4. Support NVIDIA NVENC HEVC(H265)/AVC(H264) encoding
5. Support AMD AMF HEVC(H265)/AVC(H264) encoding
6. Support Intel Quick Sync Video HEVC(H265)/AVC(H264)/VP9 encoding
