

Craftworkz, an online art and craft Supplies company, has announced the launch of their new and improved website

Craftworkz, an importer of art and craft supplies, has announced the launch of their new website. Originally, a wholesale only supplier, they have decided to branch out and reach a wider audience directly, with their new and easy to access website.

Sydney, New South Wales Aug 14, 2023 ([Issuewire.com](https://www.issuewire.com)) - Craftworkz, an online art and craft supplies company, has launched its new website, with a fresh layout, and is now equipped with easier add-to-cart and checkout options. All the art and craft supplies necessary for everyone of any age, are readily available and ready to ship from their Sydney-based warehouse. The processing time required is now less and the [art and craft supplies Australia](#) team works hard to ensure that every customer's order, reaches them in the least amount of time possible. They are always striving to maintain competitive prices, while still ensuring the quality is great. All products, including their ever-popular glitter range, are imported with quality and the needs of the customer in mind. Craftworkz has been a nationwide supplier of all kinds of art and craft materials for over 30 years now. Craftworkz is a Sydney based and 100% Australian-owned and operated, small family business.

The company began as a wholesale supplier, providing bulk materials to other small businesses and schools. But as the business evolved, and due to the high demand and popularity of their product range, they have branched out and developed a new and improved website, which will hopefully fulfil every customer's needs directly. Importantly, the provision for existing, and any new wholesale customers, to purchase at their competitive wholesale prices, is still there. They simply need to fill out the Wholesale Registration form on the website, and once this has been approved and activated by the Craftworkz team, they are able to log in to their wholesale account and proceed with ordering.

The Craftworkz team is passionate about the art of creating, and fully aware of the joy, satisfaction, and mental health benefits that can be found through creativity. They believe that the process involved in creating something is just as important as the finished product - and this applies to people of all ages and gender. Particularly now, in light of the dependence on technology, and the increase in the amount of screen time, being able to switch off and immerse oneself in the satisfaction of creating something unique, has become even more valuable, particularly for children.

Craftworkz knows and loves art and craft. They truly value the relationship with their customers and are more than happy to discuss individual requirements for events, school activities, etc. They want everyone's experience with Craftworkz to be a great one and pride themselves on providing a friendly and efficient service.

Craftworkz offers a wide range and variety of art and craft supplies - from polystyrene sheets, craft books, jewelry-making supplies, paper mache products, pom poms, pipe cleaners, felt, glitter, and everything in between. They also have an Australia-made wood craft supplies range, the bulk of which is manufactured in their Sydney warehouse.

About Craftworkz:
