

Elizabeth Junck, DC, a Chiropractor with The March Rose Family Chiropractic

Get to know Chiropractor Dr. Elizabeth Junck, who serves patients in Phoenix, Arizona.

New York City, New York Aug 14, 2023 ([Issuewire.com](https://www.issuewire.com)) - A licensed chiropractor, Dr. Junck is the Founder of The March Rose Family Chiropractic in Phoenix, Arizona.

Intensely passionate about women's and children's health, she has a desire to give these populations the tools they need to live life to its fullest. She strives to support them and provide the tools needed for

them to take charge of their health and wellness journey.

Originally, Dr. Junck was on a pre-med track with the goal of becoming a pediatric orthopedic surgeon. The closer medical school became, the more she realized she did not like the atmosphere she would be stepping into as a medical doctor. She was at a crossroads since she had spent her life pursuing this goal and now she was unsure of how to proceed.

While visiting her family chiropractor in New York (where her mom's family is from) and receiving treatment, he asked Dr. Junck whether she had considered chiropractic.

"I paused since I had not considered chiropractic. I then made arrangements to shadow at his alma mater-Palmer Davenport, Iowa- and the newer Palmer Campus in Florida. Being an Arizona native, the lack of snow in Florida convinced me and I enrolled. The rest is history!"

Dr. Junck received her Associate of Science Degree from Chandler-Gilbert Community College, her Bachelor of Science Degree from Arizona State University, and her Doctor of Chiropractic Degree from Palmer College of Chiropractic in Florida. Upon graduation, she received the James Buerkle Memorial Award, "presented to the graduating doctor who most exemplifies the virtues of compassion, strong leadership, commitment to service, and passion for the chiropractic profession."

With a passion for serving perinatal and pediatric populations, Dr. Junck is certified by the International Chiropractic Pediatric Association (ICPA) in Webster Technique. With a desire to serve the entire family, she is additionally certified in Physical Medicine Modalities and Therapeutic Procedures (PMMTP).

Attributing her success to her family and their support of her in all her endeavors, Dr. Junck will soon receive Certification from the Academy Council of Chiropractic Pediatrics (CACCP).

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain, back pain, headaches, vertigo, and a long list of other ailments and conditions. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself naturally, without the use of medication or surgery.

Outside of the office, Dr. Junck enjoys spending time with her family. When time permits, she also enjoys golfing, reading, and writing.

She accidentally became a 'tortoise mom' to 5 little tortoises - 3 of them showed up (literally at the door) in 2019, 1 the year after in 2020, and the last little 1 in 2021. They hold a special place in her heart.
