Loganholme, Queensland Sep 5, 2023 ([Issuewire.com](https://www.issuewire.com)) - The permanent makeup industry is evolving now at such a fast pace, that I find it is very important to keep up with new techniques and methods developed all across the world, hence the reason I have trained under multiple instructors across several continents absorbing the most cutting edge techniques in the industry. I have keen

attention to detail and our precise micro strokes help me to achieve some of the most realistic eyebrow tattoos in South East QLD. I pride myself in cleanliness when it comes to following Queensland Health guidelines for skin penetration, specifically cosmetic tattooing. I have completed my Infection Control certificate at TAFE QLD to provide the safest environment for my clients during cosmetic tattoo procedures. Permanently Beautiful is a fully licensed studio. My main aim is to help women achieve the most “natural look” and feel more confident about themselves, and I look forward to meeting you.

- EyeBrows Treatments

At Permanently Beautiful, we can create eyebrows that frame your eyes, last in all weather, and fit every lifestyle without effort. We use soft ombre powder. Ombre Powder Brows are a type of permanent makeup in which we create the desired fullness and design of the eyebrows by manually inserting pigment into the upper layers of skin. To insert pigment, a small tattoo machine is used. This technique differs from microblading in that we create a misty, powder-filled brow that looks more like makeup than simulated hair. The brow tails are darker and fade into a light brow start, creating the perfect ombre makeup effect.

Vicky was one of the first artists in Australia to offer HD Combination brows, and she worked her way up to make this technique very specific and one-of-a-kind. It is her favorite style to create, and she believes that HD Brows are the most natural-looking brows because they add fullness to any type of brow.

- Lips Blush

Lip blush is a semi-[permanent lip tattoo](#) technique that gives your lips color and definition. This procedure involves injecting pigment into the lips to give them a soft, flushed appearance. Lip blush, as opposed to traditional lip tattoos, has a more subtle and natural effect. With our innovative lip blush technique, you can enhance your natural beauty and achieve the perfect pout. We specialize in creating stunning, long-lasting lip blushes to give you a beautiful, natural-looking result at Permanently Beautiful.

- Eyeliner Permanent Makeup

Eyeliner Permanent makeup is a cosmetic procedure that involves tattooing pigment onto the eyelids to

give the appearance of eyeliner. The end result is a beautiful, long-lasting, smudge-proof eyeliner that saves you time and effort in your daily makeup routine. Permanent makeup may be the solution for you if you're tired of constantly applying eyeliner every day or struggling to create the perfect wing.

Book a consultation with us today if you're ready to simplify your makeup routine and wake up every day with perfectly applied eyeliner.
