

Mazarine Dock Boxes Releases New Model with Enhanced Features

Florida Company Keeps Innovating Technology

Panama City, Florida Aug 2, 2023 ([Issuewire.com](https://www.issuewire.com)) - Mazarine Dock Boxes, the leading manufacturer of custom-designed, solar-powered dock boxes, today announced the release of its new model. The new model features a number of enhancements based on customer feedback, including an integrated organization & storage system and a fresh scent system.

“Our new model continues to deliver the premier base features of solar power, built-in dehumidifier, built-in lock, LED lights, and customization options to match the vessel,” said Jamin Finlaw, CEO of Mazarine Dock Boxes. “They are what has made MAZARINE into the premier dock storage solution.”

“With our new model, we implemented many new features and upgrades based upon customer feedback after years of R&D out in the wild,” Finlaw continued. “The two most impactful features are our new integrated organization & storage system which allows customers to keep their MAZARINE organized with highly used or typically cluttered items well placed and within reach. Secondly, our new fresh scent system allows clean, scented air to flow through the case to avoid the mold, and musty smell typically found in any standard dock box. These two new features have been not only very popular but incredibly well received. We couldn’t be happier with our newest features.”

The new Mazarine Dock Boxes are available now. For more information, visit www.mazarine.co.

About Mazarine Dock Boxes
