

Narmadha Kuppuswami, MD, FACOG, Obstetrician& Gynecologist

Get to know Obstetrician-Gynecologist Dr. Narmadha Kuppuswami, who served patients in the State of Illinois.

New York City, New York Aug 21, 2023 ([IssueWire.com](https://www.issuewire.com)) - Dr. Kuppuswami, “Narma”, is an obstetrician-gynecologist with over four decades of experience delivering care in the United States and India. Her passion is to make a difference in the lives of women before, during, and beyond childbirth.

Since retirement, she has been focusing on how to make pregnancy safe for all women around the globe by reducing preventable maternal and neonatal deaths and empowering women to take control of their health.

Leveraging her extensive experience Dr. Kuppuswami created a mobile application called WONDER which stands for **W**omen’s **O**bstetrical, **N**eonatal, **D**eath **E**valuation & **R**eduction. This mobile application helps mothers to monitor themselves using simple biometric devices like BP apparatus, thermometer, and weighing scale and keying in important symptoms they might experience. If anything is abnormal, the system will alert the user to seek medical advice and has it also has the ability to alert the physicians.

“Our mission is to help patients recognize the early warning signs of pregnancy through an alert system and to facilitate immediate communication with their doctors without delay. Avoiding delays at all levels and providing appropriate treatment on time is essential to prevent serious complications and death. About 60% of maternal deaths are avoidable. The Wonder Remote Patient Monitoring (RPM), the Wonder Moms & Wonder Newborn mobile applications provide a novel way of following the mothers and their newborns safely in the comfort of their homes, and still staying connected with their physicians” expressed Dr. Kuppuswami.
