

Richard E. Kinard, MD, a Radiologist with The Orthopedic Institute

Get to know Radiologist Dr. Richard E. Kinard, who serves patients in Florida.

New York City, New York Aug 25, 2023 ([Issuewire.com](https://www.issuewire.com)) - A board-certified radiologist, Dr. Kinard is affiliated with The Orthopedic Institute in Gainesville, Florida. His journey into radiology was driven by an insatiable curiosity and a fervent desire to solve the puzzles that medical diagnoses often present. He found his calling in the intricate world of spinal and joint health, specializing in diagnostic and therapeutic procedures such as spinal injections, kyphoplasty, sacroplasty, and vertebroplasty.

However, what truly sets him apart is not just his exceptional medical acumen but his heartening dedication to his patients. To him and his entire team, patients are not mere cases; they are individuals seeking answers and relief. Driven by an ethos of patient-first care, he consistently goes the extra mile to ensure that each patient's journey is met with empathy, understanding, and the highest quality of medical attention.

Academically, Dr. Kinard's educational foundation was built at the prestigious University of Florida. Subsequently, he pursued his medical education at the University of North Carolina, Chapel Hill, further solidifying his commitment to medical excellence. His internship training took him to the University of Colorado, followed by rigorous residency training at the David Grant USAF Medical Center on the grounds of Travis Air Force Base, California.

With an unwavering commitment to his specialty, the doctor is board-certified in diagnostic radiology by the American Board of Radiology (ABR). The ABR is a not-for-profit physician-led organization that oversees the certification and ongoing professional development of specialists in diagnostic radiology, interventional radiology, radiation oncology, and medical physics.

Remaining up to date in his field, he is a valued member of esteemed organizations such as the American College of Radiology, the Radiologic Society of North America, the North American Spine Society, and the International Spinal Intervention Society.

Radiology refers to the field of medicine that uses non-invasive imaging scans to diagnose a patient. A radiologist is a physician who uses imaging methodologies to diagnose and manage patients and provide therapeutic options.

On a more personal note, Dr. Kinard is an enthusiast of open water swimming, fearlessly diving into challenges much like he does with medical diagnoses. Music is another avenue of expression for him, as he indulges in playing the guitar. The discipline and dedication he applies to his hobbies mirror the qualities that define his medical career. Furthermore, weightlifting and reading serve as outlets for both physical and intellectual enrichment, a testament to his well-rounded approach to life.
