

Sarojini Group: Promoting Best of Engineering Designs in the Ferroalloy Industry

Sarojini Group's fundamental strength lies in its capacity to tackle complex challenges and provide pioneering solutions to Ferro alloy Industry.

Visakhapatnam, Andhra Pradesh Aug 4, 2023 ([IssueWire.com](https://www.issuewire.com)) - Over the last three decades, Sarojini Group has established itself as a leading player in the design, fabrication, installation, and commissioning of Furnaces in various parts of India and abroad too. With the help of hands-on experience and an expert team, the company has consistently met client expectations, delivering exceptional results in every project undertaken.

Sarojini Group's core strength lies in its ability to tackle complex challenges and provide innovative solutions to [Ferroalloy Industry](#). The company builds an expert team of design engineers equipped with the latest design software. All the team members work collaboratively to ensure that each project complies with stringent codes and customer requirements. Through their technical expertise, SEW has consistently delivered unmatched precision in the construction and production of Ferro Alloys plants.

Established in 1992, Sarojini Group has emerged as a leading name in the Engineering field, delivering cutting-edge solutions through its expert team and state-of-the-art facilities. Under the leadership of its visionary founder and Chairman, Sri. P. Rajan Babu, the Company celebrates a remarkable journey of excellence and innovation in the field of Submerged Electric Arc Furnaces for the production of Ferro Alloys.

By focusing on addressing customer problems, the company has paved the way for streamlined and efficient construction processes. One spokesperson of the Sarojini Group added. "We ensure compliance with the most stringent codes and customer requirements. Our Design and Engineering Office utilizes the latest CAD Software, allowing us to tailor all solutions precisely and fulfill the unique needs of each client including the clients of the **Ferroalloy Industry**."

The key strengths of Sarojini Group lie in its technical expertise, qualified team of engineers, and advanced design software. In addition, the in-house production facilities further contribute to reducing costs and enhancing the overall quality of the projects undertaken.

Till now Sarojini Group has completed several projects, making significant contributions to the growth and advancement of the **Ferro Alloys industry**. A few of them are

- ABHIJEET FERRO TECH LTD. VISAKHAPATNAM. (TURNKEY) 8 X 22.5 MVA
- COSMIC FERRO ALLOYS, DURGAPUR, WEST BENGAL 1 X 9 MVA
- CORPORATE ISPAT ALLOYS LTD., DURGAPUR, WEST BENGAL 1 X 12 MVA
- ANJANEYA ALLOYS LTD., VISAKHAPATNAM, ANDHRA PRADESH 4 X 18 MVA

About the company: Sarojini Group is a pioneering company in the field of the construction of Submerged Electric Arc Furnaces. The company has specialization in the Fabrication, Erection, and Commissioning of Ferro Alloys production units. With a focus on delivering exceptional solutions to clients worldwide, Sarojini Group has earned a reputation for unmatched quality and customer satisfaction.
