With the ability to convert and enhance videos of various formats, people can now access educational videos, lectures, and presentations on any device, anytime. Keep reading for more details.

30% Off Leawo Video Converter Single

[Leawo Video Converter](#) is designed to convert Video to a wide range of file formats that can be seen from TV to mobile devices. There is a reliable list of tools in Leawo Video Converter to manipulate your videos, the important one of which is the pre-programmed output configuration file. These profiles allow you to choose from 25 different file formats, so you shouldn't run into any trouble. It also offers more than 100 device optimization profiles, covering everything from smartphones and tablets to gaming systems and set-top boxes. Users should find a profile that suits their needs. After conversion, customers can even [play MKV file on Samsung TV](#) and solve problems when they try to [play DAV files on VLC player](#). Besides, this program contains one of the best video editors we've seen during our review. It makes it very easy to trim, crop, and flip videos. Users can also personalize the final video with watermarks and embedded captions in the output video. The Effects menu controls brightness, contrast, saturation, and volume. In addition, converting 2D video to 3D is possible with this formidable tool.

Other Preference:

- Free Screen Recorder. During the promotion period, all users will freely get Screen Recorder without any additional fee. The way to get this freebie is easy and all customers need to do is to fill in the information to receive the activation code.
