

American Taekwondo Association to Make Affordable Healthcare Options Available through its Authorized Partners

Little Rock, Arkansas Sep 26, 2023 ([IssueWire.com](https://www.issuewire.com)) - For the first time ever, The American Taekwondo Association (ATA) is proud to make available healthcare coverage options for licensees, school owners, and instructors.

Thanks to ATA's partnership with Cadence Insurance and VAULT Strategies, instructors and employees at licensed ATA locations can take advantage of alternatives to major medical health plans, including preventative care, telehealth, and discounts on drugs and medical supplies. These benefit plans can be tailored to the needs of owners, operators, and their employees, from basic plans all the way up to full-service healthcare at competitive pricing.

"I understand the challenges as well as the joys that owners and operators experience when running a successful school. That is why ATA wants to help alleviate the headaches with finding quality healthcare benefits" states Sr. Master Taekwon Lee. "Through our authorized partners, we wanted to make sure we had a variety of health plans that fit everyone. By setting up a free consultation, you can discuss your exact needs – for you, your family, and your business."

Forward thinking employers have already begun adopting this solution. Early adopters to this model are already finding it to be the perfect solution - especially if they had given up on offering their employees any type of benefits. ATA invites you to get started at www.vault-benefits.com!

About ATA

ATA International, America's largest martial arts organization founded by Eternal Grand Master H. U. Lee in 1969, provides students, teachers, and schools with the highest quality of martial arts curriculum in the world. With more than 1000 privately-owned schools in twenty-eight countries globally, the ATA has trained more than one million students and currently has more than 300,000 active members throughout the world. ATA is headquartered in Little Rock, Arkansas, and is a privately held corporation. To learn more, visit www.atamartialarts.com.

About Cadence Insurance

Cadence Insurance is a team of licensed brokers ready to help identify business insurance program needs, even as it grows and changes over time. Cadence is here to review current coverage, quote its clients' needs at the most competitive rates, and tailor programs to ensure you are protected from risk exposures. From general liability to workers' compensation to cyber liability, Cadence work with you to determine the best insurance program for your business.
