

Breakthrough Unsheltered Anthology Book Series Launched

Special Media Alliance formed to amplify the plight of homelessness worldwide

Tampa, Florida Sep 5, 2023 ([Issuewire.com](https://www.issuewire.com)) - Award-winning 360° Nation has joined forces with award-winning All Things Wellness to launch a special Anthology Series; "Unsheltered: Voices from The

Street". This will be a one-of-a-kind "for good" versus for-profit series for and about the unsheltered, more commonly referred to as homeless. It's time for their stories to be told by them and by those who can speak about and for them.

Joining this "for good" versus for-profit endeavor is David Berenbaum, a renowned affordable & fair housing advocate who will author the book foreword, and Renato Rampolla, a world-class photographer, providing authentic images. Quoting Renato: *"My lens draws close, deliberately focusing on their humanity rather than their circumstance. My portraits are not just about the dignity of the homeless but about you and me and our fundamental human needs of belonging, respect, love, and kindness."*

Dennis Pitocco, Chief Reimaginator, 360° Nation said: *"Our quest is to rally our collective talent and resources to materially amplify the voices and visibility of the unsheltered population while breaking down the stigma associated with homelessness. We listen, gather, and share their stories. We change the world by changing the narrative, one person, one story, one day at a time."*

Peggy Willms, Founder, All Things Wellness said: *"It's time to open our minds and our hearts by doing more and doing better, as together, we educate, raise awareness of, and dismantle the misconceptions about the many misunderstood souls living on the street, empowering each of us individually, and collectively to create change for good."*

ABOUT 360° NATION

[360° Nation](#) encompasses a publishing enterprise; the award-winning BIZCATALYST 360°, a multimedia enterprise; 360° Nation Studios, and a social enterprise, GoodWorks 360°. Our mission is to rediscover humanity at its best, by figuring out what the world is trying to be – and then help the world be that, be better, and be even more. We don't do it all, but we do it all for good.
