

Christopher Wydler, DC, Chiropractor

Get to know Chiropractor Dr. Christopher Wydler, who serves patients in Florida.

New York City, New York Sep 14, 2023 ([Issuewire.com](https://www.issuewire.com)) - A chiropractor in training who is excited to become better and better every day, Dr. Wydler has plans to eventually open his own practice. He is thankful for the passion his educational experience has instilled in him, while dedicating his time and attention to lectures, laboratory work, and clinical training opportunities.

Among his many strengths, Dr. Wydler is adaptive within a multi-disciplinary and fast paced setting,

intuitive and innovative when providing passive and active care therapies on different population groups, a strong team player with a willingness to learn from other healthcare professionals/colleagues, easy to work with, provides others with honest and positive feedback when necessary, well versed in functional specific exercises for many individuals in this field, as well as knowledgeable on how to use EMS (all settings), ultrasound, combo therapy, hydrocollator, cupping, and instrument-assisted soft tissue manipulation tools.

Educated in the United States, Dr. Wydler graduated with his Bachelor of Science Degree in Exercise Physiology, Biomechanics, Ergonomics, & Kinematics from Ave Maria University in 2019. He then went on to earn his Doctor of Chiropractic Degree from Keiser University College of Chiropractic Medicine in 2023.

From January 2023 - April 2023, he served an externship at Neurosports Elite with Dr. Spencer Barron. There, his main focus was on high level, high intensity, high focus patient-centered care with the main outline on musculoskeletal care of athletes, military, and the normal population.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain, back pain, headaches, vertigo and a long list of other ailments and conditions. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself naturally, without the use of medication or surgery.
