

Deborah Cahill, MD, an Anesthesiologist with Rhode Island Hospital

Get to know Anesthesiologist Dr. Deborah Cahill, who serves patients in Providence, Rhode Island.

New York City, New York Sep 27, 2023 ([Issuewire.com](https://www.issuewire.com)) - A committed anesthesiologist, Dr. Cahill sees patients within the Department of Anesthesiology at Rhode Island Hospital, Hasbro Children's Hospital, and the Miriam Hospital in Providence, Rhode Island. She is the director of anesthesia at the RI Surgery Center in Warwick, RI, and also serves as an Assistant Professor of Anesthesiology at The Warren Alpert Medical School of Brown University.

Rhode Island Hospital is the state's largest hospital, and its only Level I trauma center and verified burn center. The principal teaching hospital of The Warren Alpert Medical School of Brown University, it provides comprehensive diagnostic and treatment services, as well as expertise in cancer, cardiology, emergency medicine, neurosciences, orthopedics, and more.

Graduating with her Bachelor of Arts degree from the University of Massachusetts in 1980, Dr. Cahill earned her medical degree at the University of Massachusetts Medical School in 1985. She completed her internship and residency in internal medicine at St. Vincent's Hospital in 1988, and her residency in anesthesiology at the Tufts New England Medical Center in 1995. Finally, she completed her fellowship in pediatric anesthesiology at the same educational venue in 1996.

Subsequent to her education, the doctor attained board certification in anesthesiology through the American Board of Anesthesiology (ABA). As the certifying body for anesthesiologists since 1938, the ABA is committed to partnering with physicians to advance lifelong learning and exceptional patient care. Its mission is to advance the highest standards of the practice of anesthesiology.

Professionally, she is an active member of the American Society of Anesthesiologists, the Rhode Island Society of Anesthesiologists, the Rhode Island Medical Society and Bylaws Committee, the American Medical Association, and the Rhode Island Medical Society.

Anesthesiology is the medical specialty concerned with the total perioperative care of patients before, during, and after surgery. It encompasses anesthesia, intensive care medicine, critical emergency medicine, and pain medicine. Anesthesiologists have the primary responsibility of monitoring the patient's vital signs during surgery. In addition to basic measurements such as pulse, blood pressure, and temperature, they measure the patient's respiration and make critical adjustments to the anesthesia while closely communicating with the surgical team.
