A greyhound's journey

Lisa Coates

Newberg, Oregon Sep 6, 2023 ([Issuewire.com](https://www.issuewire.com)) - Human beings cannot exist without a community. Love and care are congenital for humans, which is why we crave companionship. In this sense, pets are not so different from humans in that they also need attention and to be taken care of to live happily. Focusing on this concept, the author **Lisa Coates** has released a brand-new book titled '[A Greyhound's Journey](#)'. The author has showcased immense penmanship by crafting such an enjoyable book that makes readers learn a lot of things about pets and their needs. The story focuses on two greyhounds, named Triple and Idaho, and their journey to find a forever home.

Throughout the entire story, the author has shown her talent and creativity and turned the storyline into something informative. The author emphasizes the fact that even though animals in general are not able to speak and express themselves, they are still longing for our love, care, and attention. When given the right affection and care, just like humans, they thrive as well. '**A Greyhound's Journey**' and its two characters, Triple and Idaho, finally find their home, where their family is overwhelmed with love for them. The book focuses on the experiences of the Greyhound owners and exciting facts about the dog breed. This is a perfect read for any budding pet lover or for people who care equally for animals as they care for humans. The book teaches readers to have empathy and to show the same endearment towards pets as they would towards their own family members.

Lisa Coates has penned down her thoughts beautifully, and through her sharp writing, readers can easily grasp the message she is trying to put out. Along with the lessons and message of loving your pets, this book shares some great details that will help people with pet greyhounds. The author intended to share the message of the necessity of family pets and how they can embody trust, and improve communication, especially with children. At the same time, this book also shines a light on the glorious bond a family has with its pets and how that stands the test of time.
