

GEI Works Announces New Website Launch

GEI
WORKS

Palm Bay, Florida Sep 26, 2023 ([Issuewire.com](https://www.issuewire.com)) - After many months of hard work and dedication from our team at GEI Works, we are pleased to announce the launch of our updated [website](#)!

Our primary goal during the redesign process was to create a more valuable, user-centric, and responsive resource across all platforms and devices. Specifically, we wanted to focus on making it easier for our users to learn and locate valuable information about our solutions for their application or industry not only at their desk but on mobile devices.

We have reorganized information about our products and our customizations. Case studies and product sheets are also a new addition to the website to help highlight completed projects and create value added resources for our clients as a result.

GEI Works' [new website](#) will be updated on a regular basis with news of product launches, blogs, and essential customer information. Visitors are encouraged to explore the website and sign up for our newsletter.

We hope you enjoy our new look!

USA-based manufacturer, GEI Works is an innovative company that specializes in helping find the right solution for the project. GEI Works believes in providing products that match the needs rather than forcing the project settings to fit a specific product. GEI Works supports a variety of products, including silt and turbidity curtains, debris boom and barriers, dewatering bags and tubes, and storm management products.
