

HR Directory 365 Now Available on Microsoft Teams

Chicago, Illinois Sep 8, 2023 ([Issuewire.com](https://www.issuewire.com)) - Beyond Intranet's HR Directory 365 - Employee Directory Software

A Game-Changing Development

Beyond Intranet is thrilled to announce that HR Directory 365 is now on Microsoft Teams. This development marks a significant step forward in our commitment to improving accessibility and

streamlining enterprise communication.

[HR Directory 365](#), a comprehensive solution designed to access the central database of all employees, is now native to the Teams platform. In the modern digital landscape, efficiency and accessibility are key.

With HR Directory 365 now available directly within Teams, users will have immediate access to crucial HR resources and information. This seamless integration will foster better communication, efficiency, and productivity, revolutionizing the way organizations operate.

The Value of Seamless Accessibility

"We believe that having HR Directory 365 on Microsoft Teams will usher in a new era of streamlined and efficient communication for businesses," says Rishabh Jhavar, Product Manager at Beyond Intranet. "Now, more than ever, users will have immediate access to the workmate's information they need, right at their fingertips."

What is HR Directory 365?

HR Directory 365 is a comprehensive employee directory and organizational chart solution. It offers a wide array of features designed to streamline and enhance organizational communication. Key features include a user-friendly employee database, advanced search & filter options, customizable employee profiles, data privacy & security, advanced search & filter options, and customizable employee profiles.

What makes the HR Directory 365 stand out are the following latest features:

- vCard QR Code: Scan and save employee information in a flash.
- Work Anniversary & Birthday Reminder: Stay informed about your team's work anniversaries and birthdays.
- User Analytics: Gain insights into your team's data by department, location, presence, and job title.
- User Property Link: A simple click to redirect to corresponding user information.

And that's not all. HR Directory 365 also offers on-demand features:

- Floor Map & Desk Booking: View the interactive floor map of your office and easily book or reserve a desk using HR Directory 365.
- Integrate Outlook Public Folder: Seamlessly integrate and view Microsoft Outlook public folder contacts in HR Directory 365.

Benefits and Features of HR Directory 365

HR Directory 365 provides a multitude of benefits. First, it makes finding colleagues' information—names, locations, contact details—a breeze. Need a snapshot of your organization's structure? [HR Directory](#) 365 offers easy-to-understand org charts, helping you visualize the layout of your company.

Moreover, with its powerful search capabilities, you will efficiently find the information you need, enhancing productivity. The rich, detailed employee profiles not only keep everyone connected but also

boost employee engagement.

Best of all, HR Directory 365 works seamlessly within Teams. This means you can enjoy the richness of a detailed employee directory without leaving your favorite workspace. Designed with modern organizations in mind, HR Directory 365 fosters a culture of transparency, collaboration, and efficiency.

Concluding Thoughts

In conclusion, having HR Directory 365 natively on Microsoft Teams is a significant milestone. As businesses continue to shift towards a more digital workspace, the need for an efficient and accessible employee directory and an organizational chart tool has never been more crucial.

This development is a testament to Beyond Intranet's ongoing commitment to delivering comprehensive, user-friendly solutions that meet the evolving needs of today's businesses.

"With HR Directory 365 now on Teams, we're bridging the gap between HR management and team collaboration," concludes Jhavar. "We're excited about the potential this holds for enhancing communication, improving efficiency, and driving growth for businesses everywhere."

Beyond Intranet is proud to be at the forefront of this evolution, and we look forward to continuing to support organizations in their digital transformation journeys.
