

Meet Mohammed Araan Sheikh, a teen who built a tycoon worth Millions...

Mohammed Araan is an hacktivist, researcher, developer, lead at TUMULL INC at a young age of 17 years. He has even made Discord Applications. Developed a App named PICK UP PODCAST.

Mumbai, Maharashtra Sep 28, 2023 ([Issuewire.com](https://www.issuewire.com)) - Commencing a business endeavor is undoubtedly challenging. Being an entrepreneur demands more than mere financial resources and a viable product or service.

Starting a business involves facing numerous challenges throughout different stages of the process – from generating an idea to securing capital, investments, advertising, marketing, and sales. Once the business is operational, it requires dedication and perseverance in order to sustain and expand its operations.

In the world of entrepreneurship, it is not uncommon for individuals to begin their journey with just a single idea and limited financial resources. However, through determination and strategic decision-making, they are often able to establish profitable and sustainable businesses. This is exemplified by the story of Araan Sheikh, a young individual who has demonstrated remarkable acumen in creating successful brands and generating revenues in crores.

[Araan Sheikh](#), a young entrepreneur hailing from India, has achieved remarkable success at the age of 17. His journey in the professional world has been truly inspiring. Three years ago, when Araan was just 14 years old, he embarked on his entrepreneurial path by establishing his software company named TUMULL I.N.C., along with a group of like-minded friends.

Araan Sheikh, a student from Udupi, was only fourteen years old when he developed his first mobile application as a hobby to beat boredom and also has been designing logos and websites for clients worldwide, has finally launched his own company 'TUMULL INC' at the age of 14.

TUMULL INC, a dynamic and innovative company, has established itself as a leader in various areas including Snap/Insta LENS, Applications Development, AI Development, Discord App development, Web development, and [Blogs](#). Despite its relatively short existence, the company has already achieved remarkable success, boasting an impressive annual turnover exceeding USD 1M+. This accomplishment is a testament to TUMULL's dedication to excellence and its ability to deliver exceptional solutions to its clients.

Araan Sheikh, along with his esteemed firm, has had the privilege of collaborating with renowned clients such as Google, Meta, Discord, Snapchat, and Plesk. With a track record of successful partnerships and a commitment to delivering exceptional results, Araan's expertise and his firm's capabilities have positioned them as trusted partners for industry-leading companies. This impressive roster of clients serves as a testament to the reputation and quality of work that Araan and his team consistently bring to their engagements.

In many ways, Araan Sheikh exemplifies the entrepreneurial spirit of Indians who aspire to achieve great success in the international market. The rapid growth of Araan Sheikh, despite limited resources, serves as an inspiring example for new startups to emulate. One can only hope that the rise of Araan Sheikh inspires more Indian youth to take risks and become successful entrepreneurs.
