**Thanh Pho Ho Chi Minh, Vietnam Oct 13, 2023 ([Issuewire.com](https://www.issuewire.com))** - LaserScanning, a leading brand in the area of 3D laser scanning and surveying, is delighted to announce the formal debut of its services, which will be supported by a team of highly experienced specialists. This historic revelation corresponds with an exciting series of future events, indicating a substantial advancement in the field of precision

measurement and 3D data capture in Vietnam and beyond. LaserScanning has successfully established itself as a dependable and forward-thinking provider of 3D laser scanning services to a wide variety of businesses.

**Words of the Managing Director:** With the launch of its services and the addition of a team of professionals, the firm is set to transform the way organizations approach measurement and data collection. Modern laser scanning equipment and technology are used by LaserScanning, a [3D laser scanning company](#), to collect accurate 3D data. Our cutting-edge equipment and software enable them to give clients comprehensive and meaningful data.

**Words of our Professional Team:** Our services may be used for a variety of purposes, such as building documentation, site studies, structural inspections, and the protection of cultural assets. Both large-scale projects and precise, specific tasks are within their scope of expertise. Laser scanning provides specialized [laser scan to BIM services](#) to satisfy particular customer needs since it recognizes the individuality of every project. Clients obtain the information and insights they require thanks to their dedication to personalization. Project schedules are greatly shortened and interruptions are dramatically reduced when 3D laser scanning technology is used.

**About LaserScanning:** LaserScanning is Vietnam's top provider of 3D laser scanning services. The firm provides accurate and diverse solutions for a wide range of sectors, including architecture, construction, engineering, and historical preservation, using a team of highly qualified specialists and cutting-edge technology. We are a well-equipped 3D laser scanning company to execute that promise with our highly skilled personnel and cutting-edge technologies. We look forward to greeting users at our forthcoming events and assisting organizations across sectors in making educated decisions based on precise data.
