Vascular Pain: Addressing circulatory system-related pain.

Plantar Fibromatosis: Effective management for this common foot condition.

Gout Pain: Relief for those suffering from gout.

Scar Treatment: Answers for work on the presence of scars.

Obligation to Quality and Wellbeing

As compounding gains popularity for its ability to relieve symptoms with fewer side effects, maintaining stringent quality standards becomes crucial for ensuring patient safety and treatment efficacy. Nour Pharmacy is proud to be a member of the Professional Compounding Centers of America (PCCA) and adheres to rigorous quality control measures.

We only use FDA-supported compound elements of the greatest virtue and follow severe intensifying conventions. PCCA's Quality Control division is committed to guaranteeing the nature of synthetics utilized in compounding, from the second they show up to the time they boat to our individuals. This fastidious cycle includes acquiring Authentications of Investigation for every synthetic, checking their character when repackaging, leading standard tests, and affirming special identifier numbers prior to transportation.

Moreover, as a wholesaler and repackager of both Dynamic and Non-Dynamic Drug Elements for drug store compounding, Nour Pharmacy store is enlisted and examined by the FDA and DEA. We are authorized in the province of Texas and any remaining states where licensure is required, guaranteeing that we meet and surpass current Great Assembling Practices and Guidelines.
