### About GRABCSR:

GRABCSR, short for Global Recognition Awards in Business and Corporate Social Responsibility, was established in 2020 to honor small businesses that positively impact their local communities.

Over the years, our awards program has expanded to acknowledge excellence in innovation, service, and overall business performance. In 2024, the GRABCSR Global Customers' Choice Awards will recognize quality-driven businesses in over ten thousand cities worldwide.

We prioritize customer feedback as the primary voting method, emphasizing businesses that provide exceptional value within their sector and region. Our evaluation considers aspects such as management, pricing, product/service quality, customer service, after-sales support, and overall presentation.

Participants will compete within their sectors for recognition, with winners receiving awards plaques based on aggregated votes over twelve months. State-level awardees will also contend for national recognition.
