

Viaoutbus Launches Revolutionary Transportation Solutions with New Products

Via Outbus is the largest supplier of advertising on buses throughout the North and Northeast. It offers the ability to interact with the public on the move in all major cities in the north and northeast regions.

Tavares, Paraiba Sep 30, 2023 (Issuewire.com) - Viaoutbus, a leading provider of transportation solutions, is excited to announce the launch of Their innovative new products: Busdoor, Backbus, Backseat, and Outbus. These cutting-edge solutions aim to enhance the safety, comfort, and

convenience of bus travel for passengers and operators alike.

[Busdoor](#) revolutionizes the boarding and alighting experience for passengers. This state-of-the-art door system incorporates advanced technology to ensure smooth and efficient operation while prioritizing passenger safety. With its sleek design and robust construction, Busdoor sets a new bus entry and exit system standard.

Backbus is an intelligent rearview camera system that enhances driver visibility, significantly reducing the risk of accidents. This cutting-edge technology provides a wide-angle view of the bus's rear, eliminating blind spots and improving overall safety. Backbus also includes advanced features such as object detection and distance measurement.

Their new Backseat is designed with passenger comfort in mind. Utilizing ergonomic principles, this seating solution promotes proper posture and provides ample legroom for long journeys. The [Backseat](#) also features adjustable headrests, integrated armrests, and high-quality upholstery, ensuring a comfortable and enjoyable ride for all passengers.

Outbus is an integrated onboard information and entertainment system that takes the bus travel experience to the next level. Equipped with a user-friendly interface, Outbus allows passengers to access a wide range of multimedia content, including movies, music, and travel information. Additionally, Outbus offers Wi-Fi connectivity, enabling passengers to stay connected while on the move.

Viaoutbus is committed to delivering innovative solutions that enhance the transportation industry's safety, efficiency, and passenger experience. They believe that Busdoor, Backbus, Backseat, and Outbus will revolutionize the way people travel by bus.
