

Wikicious: Bridging the Gap Between CeFi and DeFi with Decentralized Innovation

Wikicious – India's first decentralized crypto exchange (DeX) & trading platform

Bengaluru, Karnataka Sep 2, 2023 ([Issuewire.com](https://www.issuewire.com)) - Wikicious, a groundbreaking decentralized cryptocurrency exchange, is set to revolutionize the world of digital assets. With a mission to combine the liquidity and user-friendliness of Centralized Finance (CeFi) while embracing the permissionless innovation of Decentralized Finance (DeFi), Wikicious aims to provide a cost-effective solution for crypto enthusiasts.

Wikicious offers a comprehensive range of features, including margin trading, lending, perpetual futures, and decentralized governance, empowering users to shape the platform's future. In the long run, Wikicious's permissionless model will usher in a more democratic and transparent listing process for new assets.

Behind Wikicious is a dedicated team of seasoned developers and financial professionals, united by their vision of creating the ultimate decentralized crypto exchange. Leading the charge is CEO and co-founder Hetwik, a software engineering expert who brings invaluable experience to the project.

"We're excited to launch Wikicious and provide a much-needed solution to the current challenges faced

by centralized exchanges," said Hetwik. "Our innovative blend of CeFi and DeFi features promises to offer our users the best of both worlds."

In addition to these groundbreaking features, Wikicious is actively developing advanced machine learning and AI bots capable of executing crypto trades 24/7 with an astounding accuracy rate of over 90%, all without human intervention.

As of now, Wikicious is in beta, with plans for a full platform launch by the end of the year. For more information and an opportunity to be part of the beta experience, please visit Wikicious's official website at <https://wikicious.com/>.
