

Caja Robotics to Open First UK Warehouse for Clinisupplies

Caja Robotics to Open First UK Warehouse for Clinisupplies, a leading UK medical supplier

Stoke on Trent, Staffordshire Oct 26, 2023 ([Issuewire.com](https://www.issuewire.com)) - **Caja Robotics**, a leading provider of cutting-edge robotic warehousing solutions, is delighted to announce it was awarded the contract at its first UK warehouse. **Clinisupplies UK**, a leading supplier of medical products with more than 20 years of experience in healthcare, will be implementing **Caja Robotics' advanced goods-to-person robotic solutions to automate and streamline their new stock warehouse's logistics and inventory operations**. This marks a significant milestone for both companies as they strive to enhance efficiency, accuracy, and productivity.

Clinisupplies is renowned for its commitment to delivering high-quality medical supplies to support patients with their everyday healthcare needs. Clinisupplies recognizes the need to optimize their warehousing processes to meet the evolving demands of their customers. By teaming up with Caja Robotics, Clinisupplies aims to revolutionize its warehouse operations, while maintaining its exceptional standards of service and customer satisfaction.

Caja Robotics will be providing Clinisupplies with its innovative robotic warehouse solution, which

includes Sprynter and Skyler robots, managed by highly advanced WCS software that uses AI algorithms to optimize warehouse inbound, outbound, and inventory activities. This will enable Clinisupplies to streamline order fulfillment, improve inventory accuracy, and enhance operational efficiency. Operations with Caja-supplied robots are scheduled to begin in early 2024.

Caja Robotics' innovative automation technology will enable Clinisupplies to process orders in an automated manner, faster and more efficiently, resulting in shorter lead times and improved customer satisfaction. The system's advanced analytics capabilities will provide Clinisupplies with valuable insights into inventory management, enabling them to optimize stock levels and enhance data-driven decision making.

Clinisupplies' dedication to innovation and continuous improvement aligns perfectly with Caja's mission of **"Maximum Software – Minimum Robots."** By implementing Caja Robotics' advanced automation solutions, Clinisupplies is taking a major step forward towards the future of warehousing, setting new standards for efficiency and reliability in the healthcare supply chain.

About Caja Robotics

[Caja Robotics](#) is a leading provider of robotic automation solutions that enable businesses to optimize their operations, increase productivity, and reduce costs. Combining cutting-edge technology with a deep understanding of industry needs, Caja Robotics develops customized solutions for various sectors, including e-commerce, retail, logistics, and manufacturing. With a commitment to innovation and customer satisfaction, Caja Robotics is driving the automation revolution.

About Clinisupplies

[Clinisupplies](#) is a leading UK-based manufacturer and supplier of medical appliances specialising in continence products for managing acute and chronic conditions. The company also offers a portfolio of bandages and garments for the treatment of wounds and chronic skin conditions. Employing over 500 people in the UK, China and India, Clinisupplies supplies its products to the NHS and delivers directly to patients' homes through Clinidirect, its dispensing appliance contractor. Clinisupplies is focused on developing products that are simple and discreet to use. Its product development team works with clinicians and patients to develop a strong product pipeline to be manufactured at its CE, ISO, US FDA approved facilities.

Dr. Ilan Cohen, Caja Robotics' CEO and Chairman: *"We are thrilled to embark on this exciting new chapter as we bring our cutting-edge warehouse automation technology to the UK. Our goal is to empower businesses in this region with the transformative power of automation, enabling them to unlock new levels of productivity, scalability, and success. Caja Robotics is proud to provide our exceptional warehouse automation solutions, and together with Clinisupplies, we will drive towards exceptional success. We are committed to working closely with our clients, understanding their unique needs, and delivering customized solutions that yield tangible results."*

Samik Basu, Clinisupplies CFO: *"We're delighted to be partnering with Caja Robotics and are proud of the way this project combines investment in our two most valuable resources, people and technology, to help us create the perfect balance between intelligent adaptability and operational efficiency. This represents one step among many in the evolution of our approach, as we continue to make a real difference to our customers' lives and to the wider health system each and every day."*
