

Enhanced W.A.I.T: A Comprehensive AI Solution for Streamlined Content Creation

Webuters Enhances W.A.I.T (Webuters AI Tools) with Advanced Image/Art Generation tool, sentiment analysis, SEO analysis and Paraphrasing Capabilities and more.

Noida, Uttar Pradesh Oct 9, 2023 ([Issuewire.com](https://www.issuewire.com)) - Webuters, a leading name in digital transformation and generative AI solutions are proud to unveil its latest enhancements to innovation: **W.A.I.T. This cutting-edge platform** integrates **generative AI capabilities to revolutionize content** creation, offering tools for blog writing, keyword suggestion, sentiment analysis, image creation, and impactful social content generation.

W.A.I.T responds to the growing need for **efficient and time-saving content solutions** in the digital era. While the industry has various AI tools targeting specific tasks like headline writing or image creation, W.A.I.T combines these functionalities. Users can seamlessly craft engaging headlines, produce relevant social media content, and design art and images, all within the platform. As well as can write emails, letters, and greetings using the tool.

W.A.I.T is elevating its platform by introducing a lot of new features for its users. The image/art generator tool empowers users to craft artwork in diverse styles, capturing moods and even emulating their favorite artists – all achievable with a few selections, delivering results in seconds. The newly added paraphrasing tool ensures content refreshment is effortless, offering varied tones and creativity.

We have also added a sentence expander to add details to a concise sentence. Furthermore, the blog post writer now incorporates sentiment analysis both at the document and at a sentence level, allowing users to evoke the right sentiments in the target audience, while also assessing its SEO friendliness, ensuring optimum search engine visibility.

Enhancements at a glance

- **Image/Art Generator:** Craft art effortlessly, tailoring it to specific styles, and moods, or even emulating your favorite artist. With intuitive selections, generating captivating visuals is just seconds away.
- **Paraphraser:** Reframe content with ease, introducing different tones and creative spins to any text.
- **Sentence Expander:** Elaborating a sentence into a detailed paragraph is made easier.
- **Enhanced Blog Post Writer:** Beyond content creation, assess sentiment. Plus, ensure SEO-friendliness for improved search engine rankings.

For marketing professionals who value foresight and efficiency, W.A.I.T promises to be a game-changer. Recent research by Censuswide indicates an optimistic trend, with **84% of marketers foreseeing AI as a pivotal asset**. In the fast-paced digital landscape where online presence is paramount, tools like W.A.I.T aim to ensure businesses remain at the forefront.

Krishna Bhatt, CEO of Webuters, commented, saying, *"While AI tools like W.A.I.T are here to streamline processes, the essence of creativity remains human. AI tools like W.A.I.T are designed to help, not replace human. It's up to us to use them effectively."*

Lata Tewari, CCO at Webuters, believes that businesses can strengthen their online presence using W.A.I.T.

As part of Webuters' commitment to evolving with market needs, the company has announced plans to incorporate additional tools and features into W.A.I.T. Even non-marketing departments, such as HR, can benefit. As **Jyoti, HR Director at Webuters**, pointed out, *"AI tools, like W.A.I.T, are there to assist and make tasks easier."*
