

Historic Open-Letter Press Release to Mick, Keith, Paul and Ringo

Concept / Idea : The Rolling Beatles' Grand Canyon Concert Against Cancer for 2024

Let's Create "The Rolling Beatles" !

CONCEPT > 'Grand Canyon Concert Against Cancer'

Akron, Ohio Oct 26, 2023 (Issuewire.com) - David Keller, Creative Dir. of Fashion Art Leader, after reading about Sir Paul McCartney's spontaneous involvement with the Rolling Stones' new 'Hackney Diamonds' album project, wishes to submit the following original creative idea to all involved, as well as to the greater music world.

With now over a half-century legacy of the two most famous rock bands to ever exist, the key remaining combined members, **Mick, Keith, Paul, and Ringo** are incredible, all still actively independently writing, creating, performing, and touring to this very day.

SUPER-FUSION CONCEPT BAND: Both bands having coincidentally 'lost' *the very key players they need to 'have' replaced* (Wyman and Watts / Lennon and Harrison), they are now perfectly matched to synergistically REFORM as the greatest, most exciting one-off music project in the history of rock-and-roll as Keller's suggested new super-fusion concept band, **"The Rolling Beatles"**.

Together with their prolific writing, playing and instantly identifiable singing skills, they could readily compose and debut (within the next six months) said new concept-fusion album in planned conjunction with an unprecedented mega-one-off live show of (their) said new music to be scheduled, performed, filmed and broadcast directly from the Grand Canyon in the western United States, all net proceeds going to cure cancer, a major music project tentatively finished and performed by all four members of **"The Rolling Beatles"** super band by July 4th of 2024.

Could **'The Rolling Beatles'** fill the Grand Canyon in the greatest outdoor concert of ALL TIME?

"FAB'-solutely - - *Rock's greatest royalty at their combined finest*", adds Keller.

About David Keller

Mr. Keller seeks to bring about positive creative change to the world, having recently created and debuted his company's Official International Fashion Flag and more at: www.FashionArtLeader.com
