She demonstrates the beauty of being an independent music artist by releasing a 24-track album that contains voiceover intros, and multiple genres of music from rock, pop, urban Latin, R&B, electric urban hip hop, metal rap, and comedy. Yes, we said comedy. Celebrating a milestone under Diva Underground Records with the first album where the entertainer plays multiple

roles in the project. Intelligent Diva is the singer, songwriter, voice actress, producer, executive producer, and lyricist. Diva gets into character and plays the role of a DJ host, who interviews multiple DJs which is also played by Intelligent Diva to showcase a new type of genre of music where she teamed up with the producer. Princeton Hayes to build a series of dance tracks where the artist has written several phrases and billed a groove that you can dance and exercise to.

She takes you on the journey from Miami to Frankfurt Germany with these series of tracks. These voice-over intros resulted in the artist crossing over into the genre of comedy. Later she shows how she transforms from the life of a DJ host into a music artist of today.

Music artists of today are not just artists. They explore multiple roles in the field of entertainment to generate multiple streams of income. In the album, she pays tributes to the radio which is how she was discovered, and continues to show how you can also transition into a music artist, have a podcast, have your own radio show, and be a DJ which is the journey of a lot of artists today. We highly recommend you listen to the album in chronological order to get a full insight into the flow of the album. The multi-talented artist also teamed up with SFR Beats as the producer and also Stone Schaefer and Richard Grice as the recording and sound engineers.
