

## Introducing MealPe: India's Innovative Food Search and Ordering App for Captive Audiences

**Search & order food from your favorite Canteens, Cafeterias, and Food Courts.  
No more waiting for your Favorite Meal**

**Ahmedabad, Gujarat Oct 5, 2023** ([Issuewire.com](https://www.issuewire.com)) - MealPe App ([www.mealpe.app](https://www.mealpe.app)) is set to revolutionize the dining experience for captive audiences across India. Launched from Ahmedabad, this groundbreaking platform, founded by Satya Mehta, Maharsh Shah, and Deval Patel, offers a one-stop solution for digital cafeteria and canteen management, with a focus on streamlining restaurant onboarding.

MealPe App has garnered substantial pre-seed funding and is now open to venture capital investments, propelling its mission to redefine the way corporate IT parks, commercial buildings, colleges, co-working spaces, airport lounges, coliving spaces, hostels, amusement parks, hospitals, highway food courts, stadiums, events, venues, and theaters order and manage food.

At its core, MealPe provides two interconnected products: a user-friendly consumer application and a robust Point of Sale (POS) and restaurant management software. This unique combination enhances the ordering process for customers while optimizing restaurant operations.

Key Features Include:

- Pre-ordering
- Pre-scheduling
- Digital cafeteria management
- Streamlined restaurant onboarding
- Seamless canteen management
- Robust POS system
- Over 20 additional innovative features

Targeting a diverse range of captive audiences, MealPe App aims to be the ultimate solution for anyone seeking quick and efficient food ordering. By integrating digital cafeteria and canteen management with a comprehensive POS system, MealPe App addresses the specific needs of its audience.

Satya Mehta, Co-founder of MealPe, remarked, "Our vision is to make dining more convenient and enjoyable for everyone in India. MealPe App will not only save time but also provide a diverse culinary experience to our users."

Maharsh Shah, another Co-founder, added, "We have designed MealPe App to be user-friendly and efficient, ensuring that both customers and restaurant owners benefit from our platform. It's a win-win for everyone involved."

Deval Patel, the third Co-founder, expressed the company's openness to further investment opportunities, saying, "While we are thrilled about our pre-seed funding round, we are also actively seeking venture capital funding to take MealPe App to new heights. We believe in the enormous potential of this platform and are eager to explore growth opportunities."

MealPe App is now available for download on both Android and iOS devices, bringing a new era of convenience to captive audiences across India. Users can visit [www.mealpe.app](http://www.mealpe.app) to access the app and explore its wide range of features.
