

Newly Released CubexSoft Outlook Duplicate Remover Tool v 1.0 – Delete, Remove, & Eliminate Duplicate Outlook Items

New Delhi, Delhi Oct 27, 2023 (IssueWire.com) - **CubexSoft** has recently launched Outlook Duplicate Remover, v1.0, an Outlook Duplicate Remover tool that effectively removes multiple duplicate items from Outlook. PST Duplicate Remover Tool is such a source that helps you genuinely in de-duplication. It maintains the original data or properties of Outlook PST files the same and eliminates duplicate files only. The application assures that there will be no harm to your original files during de-duplication. This Outlook Duplicate Remover software comes with an easy GUI interface that makes you capable of deleting data in an effortless way. Users who do not belong to the technical field and have not enough acquaintance of technicalities are also eligible to use it well.

What CubexSoft Outlook Duplicate Remover Tool Has to Offer?

There are multiple [Outlook Duplicate Remover](#) Tools available in the online market, but what makes CubexSoft PST File Duplicate Remover stand out is the array of beneficial features provided by the software. Let's have a look at some of them:

The software comes with two options for selecting files and folders such as "Select Files" and "Select Folder". These options help to remove duplicate emails from Outlook in batch mode.

This application offers dual modes that help to search duplicate files. These options are similar to "Search Duplicate Across the Folder" and "Search Duplicate Within the Folder."

The software provides advanced filter options to eliminate selected duplicate data.

It is a standalone and independent application. There is no need to install the MS Outlook program to delete Outlook duplicate items.

The simple GUI of the application provides a handy solution for both technical and non-technical users to easily delete duplicate Outlook items.

Maintains accurate folder hierarchy throughout the de-duplication process.

Users will be able to delete all Outlook duplicate items including emails, contacts, mail folders, calendars, etc. without harm to their original files.

Create a log report in the TXT file containing a complete de-duplication status report, which can be used for future reference.

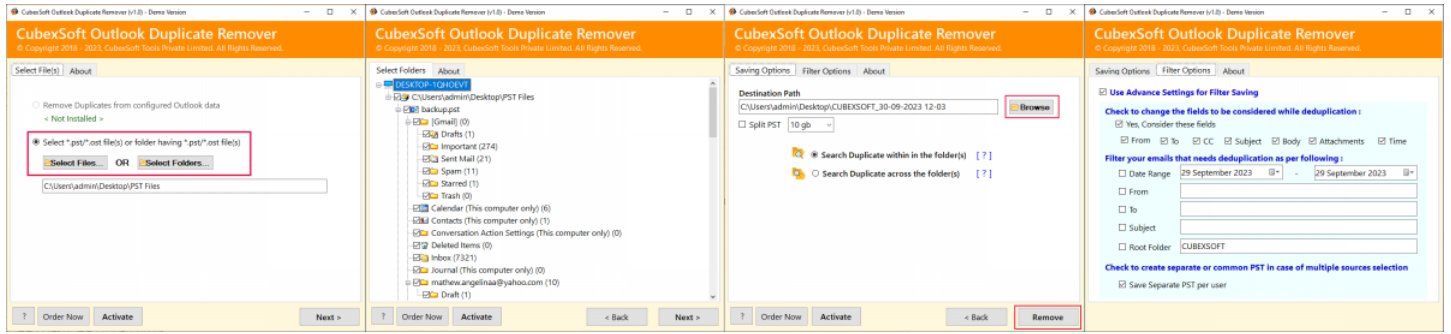

PST Duplicate Remover Tool is workable on all Windows OS like - Windows 11, Windows 10, Windows 7, Windows XP, Windows Vista, Windows 8, Windows 8.1, and other below versions.

It offers a free trial facility to show you a clear picture of how it works, 25 duplicate files can be deleted for free of cost.

Indrani Dutta, Director of Product Development, had to say the following, "We are deeply committed to providing our valued customers a great range of backup facilities, saving facilities, and advantages in order to help both large corporations and individuals. With the launch of Outlook Duplicate Remover software, the company has again proven its capability to develop its backup facilities and provide a perfect balance of performance and competency especially centered on resolving customers' problems.
