

Overseas Market Expansion of a Trusted Low Code Platform DEW Studio

Cooper City, Florida Oct 11, 2023 ([Issuewire.com](https://www.issuewire.com)) - We are thrilled to announce the expansion of our trusted and recognized low code platform in terms of utilization among US users. The recognition of DEW Studio, a [low code platform for app development](#), has led us to make the tool available for businesses and developers in the United States.

DEW Studio is a low code platform that assists developers or learners in creating web applications. The tool integrates features that make the development process a drag-and-drop solution. Over the years, it has been a highly acclaimed low-code development tool among users in India. Its agility and efficiency have changed the game for businesses and developers.

Expanding Horizons

After receiving overwhelming success in the Indian market, the DEW Studio team has recognized the global demand for an intuitive and powerful low code platform. With the expansion of our tool to the United States, developers worldwide can now experience the transformative benefits of accelerated application development.

Developers in the United States can now access DEW Studio by visiting the website. The platform offers a limited free trial period for interested users to explore its features and capabilities.

Key Features of DEW Studio

Drag-and-Drop Interface: Simplifies the development process with an easy-to-use drag-and-drop interface, allowing developers to design and build applications without extensive coding.

Multi-Cloud Support: Developers can seamlessly deploy applications across various cloud environments, ensuring flexibility and scalability.

Collaborative Development: The platform promotes collaboration among development teams, enabling them to work together efficiently, regardless of geographical boundaries.

"As the CEO of DEW Studio, I am thrilled to announce the expansion of our groundbreaking low code platform across borders. Our commitment to empowering developers and businesses with a seamless, efficient app development experience has been met with incredible success. This expansion ensures that our innovative solution reaches and benefits a wider audience."

Words of Vic Narang, CEO of DEW Studio

About DEW Studio

DEW Studio is a platform with query builders, flow programming, UI designer, data binding and more features. The drag-and-drop solution for app development reduces 50% of resources in terms of time and costs. The tool is gaining traction with its intuitive visual interface, making the development task quick, easy, and convenient for developers.
