“Orthodontics has been a great profession, involving terrific colleagues in my own specialty and in dentistry. It has been rich with stories of people’s lives and their accomplishments. A smile means so much as an expression. It makes people feel so good to get a smile and to give one in return. I have always believed that orthodontics is one of the greatest gifts a parent can give to a child. Not a day goes by that laughter doesn’t permeate the office. My patients and staff even manage to laugh at my jokes! We believe that genuine care and compassion go a long way in creating satisfied, smiling patients.”
