

Techonomy 23: The Pinnacle Gathering Illuminating the Future of AI

Worth to host a 3-day retreat that will delve into how AI will revolutionize every industry to create a more connected and transformative world.

TECHONOMY 23
PRESENTED BY WORTH

New York City, New York Nov 1, 2023 ([IssueWire.com](https://www.issuewire.com)) - Worth Media Group, a New York-based media company, proudly announces the 11th annual [Techonomy 23](https://www.techonomy23.com) conference, "***The Promise and Peril of AI, presented by Lake Nona***. Techonomy 23 will commence on November 12th in the scenic enclave of Lake Nona in Orlando, Florida, a thriving and innovation-focused community offering a sneak peek into the future. This year's conference promises to be an exceptional exploration of the transformative potential and challenges of the AI revolution.

This exclusive invitation-only retreat will bring together visionaries, innovators, and industry experts for conversations about the latest developments in artificial intelligence. Participants will have the unique opportunity to interact with dynamic thinkers both on stage and off, ensuring a conference experience that combines networking and profound insights.

"It is the perfect time to host this pivotal dialogue about the impact of Artificial Intelligence on the world." Josh Kampel, Chief Executive Officer at Worth Media Group. "From Kerry Washington to The White House's Dr. Arati Prabhakar, we have an amazing group of speakers who will discuss all aspects of AI's impact on business and society." Additional speakers will include:

- Lindsay Davenport, Tennis Champion
- Charisse Dean, Managing Director, ESG, Social Strategy, KPMG

- Joe De Sena, Founder + CEO, Spartan
- Nicholas Dirks, President + CEO, New York Academy of Sciences
- X. Eyeé, CEO, Malo Santo
- John Froese, Director - Head of Banking & Wealth Management, Google
