

2023 Guadalajara International Book Fair presents Think Like A Molecule by Chuck Champlin

Chuck Champlin Is Ready to Take Readers On An Adventure this 2023 Guadalajara International Book Fair

Guadalajara, Jalisco Nov 21, 2023 (IssueWire.com) - Esteemed author Chuck Champlin is set to participate in the prestigious Guadalajara International Book Fair 2023, taking place from November 25 to December 3, 2023. His book, "Think Like a Molecule," will be exhibited under the Authors Press company and will be available for purchase at the Authors Press booth NN43.

"Think Like a Molecule" is a small book with a big message. It explores the profound concept that our minds, possibly born from accidental creativity, can intentionally assemble marvelous new things. The book is a deep imaginative journey into the infinitely vast and invisibly tiny realms of the cosmos. It is priced at \$6.16 for the paperback version and \$3.99 for the Kindle.

Champlin, a writer, journalist, and former Walt Disney Co. communications executive seeks inspiration from the physical foundations in matters that have given rise to our thoughts. He believes that by observing molecular assemblies, we can see how matter came together, possibly all on its own, to create life and thinking minds.

The Guadalajara International Book Fair is one of the most significant book fairs globally, and Champlin's participation is a testament to his work's impact and reach.

About the Author:

Chuck Champlin has had a diverse career, from being a writer and journalist to a corporate communications executive for The Walt Disney Company. He is also a bicycle inventor, rock drummer, singer, and songwriter. Champlin is a leader in Toastmasters clubs and Optimist Clubs, promoting the hopeful idea that every human being has creative contributions to make that will increase peace and understanding in the world.
