

## **Celcom Solutions Acquires New Customers in the BFSI Vertical, Gets its First Client!**

**Bengaluru, Karnataka Nov 8, 2023 ([Issuewire.com](https://www.issuewire.com))** - Celcom Solutions, a fast-growing IT service and consulting company having 13+ years of legacy supporting large clients across the Telecom domain and with strong exposure to the BFSI vertical has acquired new customers in the BFSI domain. The company has 200+ consultants with a significant emphasis on Consulting, Implementation, Billing Solutions, System Integration Solutions, and Managed Services. As an organization, they are the

pioneers in delivering IT Services and Solutions globally in the Telecom space and now they have expanded their wings into the BFSI industry.

**Speaking about Celcom kickstarting its journey in the BFSI space, Bhavani Shanker, CEO of Celcom Solutions, said,** “We are happy to announce that Celcom has started its journey in the BFSI vertical with one of the leading customers in Bahrain. Celcom started associating with this client by supporting their digital team with Business Analysis SMEs. This is an amazing time for all of us at Celcom, as we are expanding our wings to new domains which will surely create pathways for career growth for everyone in the Celcom family.”

### **About Celcom Solutions**

Celcom Solutions is a leading Telecom solution and service provider focusing strongly on the BFSI space. Headquartered in the UK and with regional offices in Bengaluru and Chennai, we support Greenfield Implementation Transformation and Managed Services for the Oracle BSS/OSS product stack. We are privileged to work with leading clients who look at Celcom as a one-stop solution provider for all their technology requirements.

Founded in 2010 in the UK and having regional offices in India (Chennai & Bengaluru) and the USA (Atlanta), we bring years of domain expertise and global experiences to play. Our focus has been on offering the right portfolio of Products and Services to our clients across different verticals.

We are an ISO 9001-2015 certified company with 200+ employees. Over the years, we have provided industry-specific solutions in digital transformation, testing, data services, 5G integration transformation services, domain-led services for OSS/BSS stack, and consulting. These are some of our bespoke offerings. At Celcom, we have been able to deliver solutions that could transform the customer's user experience. It has been possible because of our industry practice, strong leadership, unique methodology, subject matter expertise, and decades of global experience.
