

ecodemy launches Certified Vegan Nutritionist Course

Land Nordrhein-Westfalen, Germany Nov 27, 2023 ([IssueWire.com](https://www.issuewire.com)) - As a professional distance learning school for vegan nutrition, [ecodemy](#) combines two essential aspects, that make both your healthy diet and your counseling practice successful in the long term: Science-based nutrition knowledge and its practical application. We are committed to providing knowledge and skills rather than dogma and finger-wagging because we are scientists, not missionaries. Since we also live what we teach, we teach in a way that is up-to-date, vivid, and authentic.

For seven years now, ecodemy has been offering Germany's first distance learning course for vegan nutritionists - certified and approved by the state. This has recently been made available to the international public and is called the [Certified Vegan Nutritionist Course](#). It takes place regardless of location, i.e., 100% online, and can be started at any time. In addition to teaching materials consisting of scripts, videos, and audiobooks, ecodemy offers a large forum and many aids for starting your own business: digital certificates, open badges, the institute's own seals, and much more.

In addition to this paid content, ecodemy also offers a large [vegan blog](#) where interested parties can find out more about the vegan diet with recipes, scientific articles, and other information.

The renowned rating portal FernstudiumCheck.de has awarded us multiple times over the last few years: Top Distance Learning School 2018 and after that five times in a row, Most Popular Distance Learning School. The last time – 2023 – was the most popular among 385 institutes. We thank you on behalf of the vegan idea.

The German "Distance Learning DQR" seal of approval is a seal of the Federal Association of Distance Learning Providers (Bundesverband der Fernstudienanbieter e. V.) for the classification of state-approved distance learning courses in the German or European Qualifications Framework for Lifelong Learning (DQR or EQF/EQF).

The Distance Learning DQR is intended to provide consumers with an idea about the level of the intended degree of the distance learning course when concluding distance learning contracts. The "Distance Learning DQR" seal of approval is the first seal that links the distance learning courses offered by state-approved distance learning schools with the qualification levels of the DQR or EQF/EQF and thus also ensures European comparability of the degrees.

Our foundation training "Vegan Nutritionist Course" corresponds to the distance learning DQR level 5, and our additional training with level 4. To our knowledge, it is therefore the offer with the highest classification compared to similar distance learning courses of other schools.
