

Ecuadorian Rainforest: 2024 Spotlight with QAI Organic Certification

Charting for a Course of Organic Success

Clifton, New Jersey Nov 16, 2023 ([Issuewire.com](https://www.issuewire.com)) - [Ecuadorian Rainforest](#), a leading supplier of natural ingredients, proudly announces its certification of compliance with the National Organic Program (NOP) standards, granted by Quality Assurance International (QAI). This means that the company's products; powders, spices, herbs, and extracts are of premium quality rather than being artificially manufactured or substituted ingredients.

Our source of organic offerings spans a rich variety of natural ingredients, from Raspberry Leaf Powder to Kelp Powder, and Moringa Powder, showcasing our dedication to maintaining exceptional quality standards at every stage of the process. We're not just sourcing; we're carefully curating, ensuring sustainable harvesting practices and respect for the ecosystems we call home.

Ecuadorian Rainforest's certified organic products span a wide range, including Raspberry Leaf Powder, Kelp Powder, Moringa Powder, Milk Thistle Seed Powder, and Ashwagandha Powder. These ingredients are sourced from diverse ecosystems and undergo rigorous quality control measures to ensure they meet the highest standards of purity and sustainability.

"This certification validates our dedication to providing top-tier natural ingredients," stated Steve Siegel, Vice President of Ecuadorian Rainforest. "More importantly, it opens doors for us to cater to a broader audience seeking certified organic products."

By securing certification through QAI, Ecuadorian Rainforest ensures its products adhere to stringent organic guidelines, enabling the company to meet the growing demands for transparency and authenticity in the organic marketplace. This certification further strengthens the company's reputation as a reliable source of high-quality, organic ingredients.

About Quality Assurance International (QAI):

QAI is a leading certifying agency accredited under the National Organic Program (NOP), dedicated to ensuring the integrity of organic products globally.

About Ecuadorian Rainforest:

With over two decades of experience, Ecuadorian Rainforest, owned and operated by Marlene Siegel, stands as a reliable supplier of natural ingredients sourced from diverse ecosystems. This recent organic certification further solidifies the company's reputation for quality and authenticity.
