Founder's Origin Story and Personal Touch

Wayne Ledoux's journey into entrepreneurship began in the solar industry, where he devised innovative lead generation methods that turned a \$10,000 marketing budget into \$176,000 in profit in just 60 days. He spent the next 4 years revolutionizing the way that solar gets sold to consumers today. Fueled by a desire to bring integrity to the industry, Wayne established Mayhem Digital, which has since evolved into a thriving enterprise with over 117,000 email subscribers, a growing TikTok following, and multi six figure profits for over three years. Thus, creating a healthy company to service entrepreneurs.

Beyond Mayhem Digital, Wayne is a passionate musician, boxer, and advocate for veteran communities. His commitment to supporting local veterans aligns with the core values of Mayhem Digital.
