

Medical Hero Launches Free CNA Practice Test to Help Aspiring Nurses Prepare for Their Exam

Bouvet Island, Bouvet Island Nov 5, 2023 ([Issuewire.com](https://www.issuewire.com)) - **Medical Hero**, a leading provider of online nursing education and training, today announced the launch of its free CNA practice test. The test is designed to help aspiring nurses prepare for the Certified Nursing Assistant (CNA) exam by providing them with real-life questions and scenarios.

The CNA exam is a standardized test that assesses a candidate's knowledge and skills in basic nursing care. To become a CNA, candidates must pass the exam and complete a state-approved training program.

Medical Hero's CNA practice test covers all of the topics that are tested on the CNA exam, including:

- Patient safety and infection control
- Personal care
- Nutrition and hydration
- Medication administration
- Vital signs and mental health assessment
- Communication and teamwork

The test is timed, so candidates can experience the same pressure that they will feel on the real exam. After completing the test, candidates receive a detailed score report that identifies their areas of strength and weakness.

"We are excited to launch our [free CNA practice test resources](#) to help aspiring nurses prepare for this important exam," said Susan Adeosun at Medical Hero. "We know that the CNA exam can be challenging, but our practice test is designed to give candidates the confidence they need to succeed."
