

Miracle Box Team Launched the Website Version of Miracle Box to Add Excitement to Users' Lives

Garden City, New York Nov 24, 2023 ([IssueWire.com](https://www.issuewire.com)) - After the great success of the Android app, Miracle Box is now available on the Website

Miracle Box, a mystery box game with a variety of innovative gameplay, was officially launched on the Website on November 22, 2023. Miracle Box includes comprehensive products, from sneakers to cosmetics, from game items to 3C products, etc. In addition, the Miracle Box team promises that all products are authentic and from official channels.

Miracle Box is now available on the web and Google Play Store for Android, but it is only available in North America. Dshun Horace, the CTO, expressed that since the Apple version is still in the testing stage, the launch of the Website is aimed at meeting the needs of more users. According to the data, the Miracle Box has attracted more than 73,000 users since its launch in Google Store Play (2023.05.02) and Website.

Miracle Box is the brainchild of Jalon Jenkins, the Founder & CEO, who founded the team based on his belief in the power of wishes. "We believe that everyone has the potential to make their wishes come true. With Miracle Box, we hope to make that possible," said Jalon.

Understanding that many individuals around the world are unable to fulfill their wishes due to various circumstances, Jalon envisioned Miracle Box as a means to bring joy and wonder into their lives. Users can easily navigate the app's user-friendly interface to find a box that suits their preferences.

Jessica Rivera, the CMO, shared that each box comes with probabilities for each item to ensure the game is open and transparent, and Miracle Box also offers an open-source validator to ensure the product is 100% authentic.
