

Udoh O. Obioha, MD, General Practitioner and Weight Loss Physician.

New York City, New York Apr 17, 2024 ([IssueWire.com](https://www.issuewire.com)) - Corrective Care is a faith-based organization of US healthcare professionals working around the world since 1988. They are a team of experienced physicians and other health professionals who have spent countless hours caring for the underserved. They are passionate about creating a healthier world. Dr. Obioha's journey into the realm of medicine was sparked by the inspiring legacy of his uncles, pioneering figures in the medical field within his family. He graduated with his medical degree from the University of Nigeria College of Medicine in 1979, before immigrating to the United States to further hone his skills. The corridors of learning and service opened at Howard University Hospital in 1981, where he embarked on his residency.

An expert in his field, the doctor is board-certified in obesity medicine by the American Board of Obesity Medicine and in emergency medicine by the American Board of Emergency Medicine. His professional voyage is a mosaic of service across various hospitals, from Howard University Hospital to Hollywood Presbyterian Medical Center and Greater El Monte Community Hospital. He also donned the mantle of medical director at multiple esteemed institutions, including the H. Claude Hudson Comprehensive Health Center, leaving an indelible mark on each establishment.

Passionate about teaching, he served as an Assistant Clinical Professor at distinguished universities such as the Western University of Health Sciences, the University of North Dakota School of Medicine and Health Sciences, and the University of Southern California in Los Angeles between 1990 and 2012, he not only treated patients but also nurtured the next generation of medical professionals. Through Whos Who, he has been recognized as an industry leader and a leader in emergency medicine and obesity.

Corrective Care Weightloss Program:

The secret to losing weight and keeping it off forever.

Michelle's Success Story	Scott's Success Story	Sandra's Success Story
<p>Michelle Bayer <small>Success Patient</small></p>	<p>Scott Fetch of Sykeston, MD is a believer in bariatric medicine.</p>	<p>Sandra Geeller lost 100+ pounds.</p>
 <p>BEFORE</p>		
 <p>AFTER <i>lost 130 pounds in 12 months</i></p>	 <p><i>lost 134 pounds in 12 months</i></p>	 <p><i>lost 100+ pounds in 12 months</i></p>
<p>With a hair infection and painful heel spurs, Michelle thought she'd be in a wheelchair by age 50. "You name it, I've had it!" she said regarding her pain, on her decision to visit Dr. Obi was a last resort. "I hope you I wanted gastric bypass."</p> <p>As Dr. Obi visited with Michelle, she began to feel hopeful she could lose weight without surgery. "I was depressed and down on myself. It meant a lot that Dr. Obi believed me when I told him that I didn't cheat. He was incredibly supportive. He educated me on how my body works, and how other health issues can affect weight gain."</p> <p>With the help of Dr. Obi, Michelle dropped 130 pounds in 12 months. "I can't say enough good things about him. Without his support, I couldn't have done it. And as a mother of six, taking care of myself is part of being a good mom. Now I can exercise and play with my kids. I feel like I have my life back!"</p>	<p>Scott says, "In January I stepped on the scale and that's when it hit me this was enough. Then my wife saw an ad for Udoh Obioha, MD. On Monday 12, I had my first visit with Dr. Obioha. He convinced me that he could help me through his weight loss program. All I had to do was show up. That this would be any different than any other diet. I thought I would lose 15-20 pounds and gain 30 back. After two weeks on the program I lost 23 pounds. I was motivated after being on the program six months I lost 100 pounds. I don't think I've felt this good in 20 years. In my mind, when you are on a diet, your whole body should be closely monitored due to the changes your body is going through. My mom's asked what my goal is, I tell them 12 pounds at a time, every 10 pounds is a goal and I've met 12 of them I lost 134 lbs in 12 months!"</p>	<p>Sandra first saw Dr. Obioha in June. "I had everything to lose weight, but had never had anyone to be accountable to. After seeing an ad in the newspaper and talking to someone who had worked with Dr. Obioha, I decided it was time to try again. I have been on the program for almost a year. The program was better than I ever expected. Dr. Obioha never made me feel guilty, and I've lost a total of 80 pounds! I feel great and have 100 times more energy!"</p> <p>Sandra had lost a total of 100 pounds when she last saw her in June.</p>
