

WeblinIndia demonstrates Commitment to Software Developer Community with Over 100 Code Libraries on Github

WeblinIndia has demonstrated its commitment to software development community by contributing over 100 code libraries to GitHub community. The company's contributions span a wide range of technologies & have been recognized by developers globally.

The screenshot shows the GitHub profile of WeblinIndia. The profile header includes the company name, a bio stating it's an offshore custom software development company with 150+ skilled developers, and various social media links. Below the header, there are tabs for Overview, Repositories (103), Projects (3), Packages, and People (1). The 'Pinned' section displays six repositories:

- AIML-Human-Attributes-Detection-with-Facial-Feature-Extraction** (Public): A Human Attributes Detection program with facial features extraction. It detects facial coordinates using FaceNet model and uses MXNet facial attribute extraction model for extracting 40 ty... (Python, 87 stars, 18 forks)
- AIML-Pupil-Detection** (Public): The Pupil Detection AI ML program is used to get the co-ordinates of eyes and detect the pupil region. It only works with human face images. (Python, 19 stars, 7 forks)
- React-Native-Banner-View** (Public): A react native component for showing banner that automatically swipe. (JavaScript, 1 star)
- NodeJS-DNS-Validation** (Public): A NodeJS component used for DNS validation. (JavaScript, 2 stars)
- Vue-Image-Crop-Upload** (Public): A Vue component for image cropping and uploading. (Vue, 4 stars, 1 fork)
- Flutter-OTP-Authentication** (Public): A Flutter based OTP Authentication component, used to verify your mobile number with OTP (One Time Password) using Firebase Authentication. (Dart, 232 stars, 36 forks)

On the right side, there are sections for 'People' (showing the profile icon), 'Top languages' (JavaScript, Vue, TypeScript, Swift, Dart), and 'Most used topics' (reusable-components, react-components, angular, angular-components, reactjs).

Irvine, California Nov 28, 2023 ([Issuewire.com](https://www.issuewire.com)) - WeblinIndia today announced a significant milestone in its commitment to supporting the software developer community, reaching over 100 code libraries contributed to the GitHub platform. This achievement reflects the company's dedication to giving back to the community and knowledge sharing within the tech industry.

In today's rapidly evolving tech landscape, software developers play a pivotal role in shaping the digital world. WeblinIndia recognizes this importance of fostering a supportive and thriving developer community, where individuals can learn, collaborate and innovate together. By contributing over 100 code libraries to GitHub, the company is actively giving back to the developer community, providing developers with valuable resources and tools to enhance their projects and skills.

"Reaching this milestone of 100 code libraries is a testament to our team's passion for empowering software developers and our belief in the power of collaboration," said Mr. Atul Mehta, CEO at WeblinIndia. "We believe that sharing our knowledge and expertise through open-source projects is essential for driving innovation, democratizing technology, and creating a more inclusive tech ecosystem."

WeblinIndia's contributions to GitHub span a wide range of technologies, encompassing AI ML,

Python, Java, Angular, JavaScript, TypeScript, PHP, Android, Flutter, Kotlin, DotNet, iOS, React Native, ReactJS, Dart and few more. These code libraries have been adopted by developers worldwide, powering a variety of applications and services.

Beyond its [code contributions on Github](#), WeblinIndia is also actively involved in nurturing the software developer community through various initiatives, including:

- Participating in open-source conferences and workshops to share expertise and foster connections.
- Mentoring aspiring developers and providing guidance to help them navigate the tech landscape.
- Hosting community events and hackathons to bring developers together and encourage collaboration.
- Contributing tech solutions to common issues faced by developers on [TechNetExperts](#).
- Releasing Free plugins on [WordPress plugin directory](#).

"We are proud to be a part of the vibrant software developer community and look forward to continuing to make significant contributions in the years to come," said Mr. [Atul Mehta](#), CEO. "Giving back to the community is not just a responsibility; it's an investment in the future of technology. By empowering software developers, we are empowering innovation and shaping the digital world for the better."
