

Best Electric Bikes Under £500: 5 Picks for All Budgets in 2024

Best Electric Bikes Under £500 in UK

North Yorkshire, United Kingdom Dec 25, 2023 ([Issuewire.com](https://www.issuewire.com)) - Getting the [Best Electric Bikes Under £500](#) used to seem like an impossible dream, but advances in battery technology and motor production have made the £500 e-bike a viable option for people looking to start cycling on an e-bike in the UK. We conducted extensive research and testing and discovered the five best electric bikes available at this price point. So let's check it out!

- **Assist Hybrid Electric Bike**

The Assist Hybrid Electric Bike is a great value for those looking for a daily commuter or leisure e-bike under £500. It has a maximum range of 20 miles and a recharge time of 2–3 hours. It comes in one size and fits riders ranging from 5' 3" to 6' 1". The front-wheel drive motor can propel at 15.5mph and can go faster if pedaled faster. The bike can be charged during the day for the return trip home. The Assist e-bike is simple and functional, with fewer gears for easier maintenance. It is a great choice for those looking for a budget-friendly electric bike.

- **The Highway Mountain E-Bike**

The Hitway Mountain E-Bike is one of the best electric mountain bikes under £500. It is a cost-effective and environmentally friendly electric bicycle for urban riders. It features a 250W brushless gear motor and a 36V, 8AH removable lithium-ion battery, providing adequate assistance for urban commuting and light off-road excursions. With a top speed of 15.5 mph, it is more than adequate for city commuting. The battery life is adequate, with a maximum range of 25–30 miles on a single charge.

Shimano's 21-speed transmission system allows for versatility in various terrains. The adjustable saddle and handlebar height ensure comfortable riding, and the front suspension fork absorbs shocks and vibrations. The tires provide adequate stability on various surfaces.

- **F.lli Schiano E-Moon**

The F.lli Schiano E-Moon 28" Women's Electric City Bicycle is a stylish and high-performance e-bike designed for female riders. Its sleek and elegant design, coupled with a powerful 250W rear hub motor, offers an exceptional riding experience, allowing for easy commuting on city streets. With a top speed of 15.5 mph, it's ideal for navigating inclines and headwinds. The 36V, 10.4Ah lithium-ion battery provides up to 60 miles on a single charge, ensuring a smooth ride even on bumpy city streets.

The F.lli Schiano E-Moon e-bike's upright riding position relieves back and shoulder strain, and its high-quality components, such as the suspension fork and cushioned saddle, ensure a smooth ride even on bumpy streets. Overall, the F.lli Schiano E-Moon is an excellent choice for those seeking a stylish and functional electric bike for city commuting.

- **The DYU Folding Electric Bike**

The DYU Folding Electric Bike is a compact, lightweight, and eco-friendly 14-inch electric bike designed for urban commuters. It features a 250W brushless motor and a 36V, 6AH lithium-ion battery, providing dependable assistance for urban commuting. With a top speed of 15.5 mph, it's ideal for navigating city streets. The e-bike's impressive battery life of 25–40 miles on a single charge makes it suitable for longer commutes. Its comfortable riding position and adjustable saddle and handlebar height accommodate different riders, but it lacks a suspension system, making it best suited for smooth urban roads and bike paths.

- **Windgoo Folding Electric Bike**

The Windgoo Folding Electric Bike is one of the [best electric bikes under £500 UK](#). It features a dolphin-shaped design, a 350-watt motor, and a 36-volt lithium battery. With a top speed of 25 km/h and a 3-hour charging rate, it's perfect for city use. It also has a mechanical disc brake and a tail light for alerting drivers. With an IP54 weatherproof coating and long-lasting 12-inch wheels, it's an eco-friendly

option at a fraction of the cost.
