

D&B Emerging Tech Announces Strategic Partnership with The Nigerian Institute of Architects Abuja Chapter (NIAABC)

D&B Emerging Tech and NIAABC join forces in a 9-figure partnership to transform architectural practice in Nigeria.

Abuja Federal Capital Territor, Nigeria Dec 7, 2023 ([Issuewire.com](https://www.issuewire.com)) - [D&B Emerging Tech](#), a design technology company, and a leader in digital products for architectural professional services, is thrilled to announce a strategic partnership with [The Nigerian Institute of Architects Abuja Chapter](#) ([NIAABC](#)), a prominent professional body committed to advancing architectural education and professional standards in Nigeria.

This groundbreaking partnership is set to leverage **D&B Emerging Tech's** expertise in digital products. These resources will support Nigerian architects, students, and professionals in the Architecture, Engineering, and Construction (AEC) industry, providing value and affordable digital resources to help upskill architects and improve professional practices.

D&B Emerging Tech's Architectural Resource Packages offer a range of Checklists and Template Packages, covering every aspect of architecture, from tender reports to site meetings and cost estimation. These resources guide users step-by-step, ensuring each task is completed in the correct order, and no steps are overlooked. The Architectural Services Template Package includes: Design Competition Templates, Architectural Fee Calculation Template, Strategic Definition Template, Cost

Estimation Template, Site Meeting Templates, Tender Report Template, Health & Safety Template, Handover Procedure Template, and 100+ more templates and checklists.

The collaboration will include a comprehensive promotional and marketing strategy, with both parties actively engaging in various channels to announce and market the digital products. The aim is to make these resources easily accessible to architects, graduates, students, and other professionals in the AEC industry across Nigeria.

Furthermore, this strategic partnership extends to providing **NIAABC** “Affiliate Partner” status. This means **NIAABC** will be able to promote and sell **D&B** Emerging Tech’s digital products, projected to generate a whopping 9-figures, which will further enable the chapter to reinvest in various programs that aid Nigerian architects.

Arc. Yemi Sola-Adebisi, Chair of **NIAABC**, said, “We are excited to partner with **D&B** Emerging Tech and look forward to the positive impact it will have on our members. This collaboration aligns with our mission to enhance the professional development of architects in Nigeria.”

Arc. Ehi Asein, Vice-Chair of **NIAABC** and their immediate past Chair of the Practice Subcommittee is enthused by the tremendous value and productivity that will be brought to all architects. “The NIA Abuja Chapter’s partnership with **D&B** Emerging Tech indeed marks a turning point in making architects and their architectural practices more efficient, productive and profitable.”

D&B Emerging Tech holds the conviction that technology can be harnessed to benefit architects and professionals in the AEC industry. The 9-figure partnership stands as a testament to the shared vision and commitment of both organizations to raising standards and providing valuable resources for professional practice.

“We look forward to a fruitful collaboration with **NIAABC** and are confident that this partnership will lead to innovative and beneficial initiatives for architects and professionals in the AEC industry in Nigeria,” said Arc. Usman Karaye Umaru, Chairman of **D&B** Emerging Tech.

Everyone is encouraged to stay tuned for more updates as the organizations embark on this exciting journey together, harnessing the power of technology to benefit architects and AEC professionals in Nigeria.

About NIA Abuja Chapter:

Pioneer members who were mainly public civil servants with FCDA formed the NIA Abuja Chapter in 1986; these were Architects who were residents in Abuja. We interacted as members of an extended family and supported each other.

The membership of the Chapter has grown astronomically and most members are now from the private sector. The rapid urbanization of Abuja has resulted in members becoming part of a nuclear family

without much contact with professional colleagues.

The future of the Chapter depends on effective communication; value-added activities and products to sustain members' interests and participation. The new Website/Social Media Platform is a welcome development as it is in tune with current trends in Intelligent Architecture using modern technology.

About D&B Emerging Tech:

D&B Emerging Tech is a design technology company and the future of the AEC industry. Leveraging over 28 years of experience and 300+ projects completed by its sister company, **D&B Ltd**, **D&B** Emerging Tech merges design expertise with cutting-edge technology, offering a range of solutions including BIM services, VR/AR experiences, architectural publications, and educational resources.
