Beyond his clinical expertise, Dr. Downing has demonstrated a heartfelt commitment to global health initiatives. He has actively participated in medical missions to underserved areas, including Haiti and

Peru, with SEE International. His altruistic endeavors were highlighted in the Bowling Green Daily News, where he was recognized for his impactful contributions to eye care in these regions.

Moreover, he is actively involved in organized medicine and served as a delegate to the Kentucky Medical Association general assembly in 2016. His participation in these forums underscores his commitment to staying at the forefront of medical advancements and contributing to the betterment of healthcare policies.

Ophthalmology is a branch of medicine and surgery, which deals with the diagnosis and treatment of eye disorders. Ophthalmologists are experts in the diseases, functions, and anatomy of the eye. They may provide routine care such as vision testing, as well as prescribe and fit eyeglasses or contact lenses. However, ophthalmologists are also surgeons. They repair traumatic injuries to the eye and perform cataract, glaucoma, and corneal surgery.
